Paperwork Reduction Act Statement

The Paperwork Reduction Act of 1995 (44 U.S.C. 3501) requires us to inform you that: Federal Agencies may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. This information is being collected to review, administer and evaluate the States/Tribes reclamation grants and program development and administration and enforcement to meet the requirements of the Surface Mining Control Reclamation and Enforcement Act. The obligation to respond is required to obtain a benefit.

Public reporting burden for this form is estimated to average 15 hours per response, including time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding the burden estimate or any other aspect of this form to the Information Collection Clearance Officer, Office of Surface Mining Reclamation and Enforcement, 1849 C Street, NW, Room 4559, Washington, DC 20240.

DETAILED INSTRUCTIONS FOR COMPLETING OSM-51

1. Check one box per application to indicate annual performance report submission or program narrative submission
2. Check one box per application to indicate the program type.
3. Enter name of grant applicant.
4. Enter corresponding control number(s) (If applicable).
5. Enter name of performing organization (If different from the grant applicant).
6. Enter the Program Narrative that must include the following information:

Objectives and Need for Assistance. Describe any relevant physical, economic, social, financial, institutional, or other problems you intend to address if awarded grant funds. Demonstrate the need for the assistance and state the principal and subordinate objectives of the project. Supporting documentation or other testimonies from interested parties other than the applicant may be used. Include or footnote any pertinent data from relevant planning studies.

Results and Benefits Expected. Identify the expected results and benefits to be derived from the proposed Program grant. For example, explain how the facility will be used. For land acquisition or development projects, explain how the proposed project will benefit the public.

Approach. Outline a plan of action pertaining to the scope of the proposed Program grant and detail how the proposed work will be accomplished for each assistance program. Cite factors that might accelerate or decelerate the work and your reasons for taking your chosen approach as opposed to another approach. Describe any unusual features of the proposed project, such as design or technological innovations, reductions in cost or time, or extraordinary social and/or community involvement. If possible, provide quantitative projections of the accomplishments expected to be achieved for each assistance program. When accomplishments cannot be quantified, list the activities in chronological order to show the estimated schedule of accomplishments and their target dates. Identify the kinds of data to be collected and maintained and discuss the criteria to be used to evaluate the results and success. Explain the methodology that will be used to determine if the needs identified and discussed are being met and if the results and benefits identified are being achieved. List each organization, cooperator, consultant, or other key individuals who will work on the proposed Program grant, along with a short description of the nature of their effort or contribution.

Geographic Location. Provide the locations of both the proposed Program grant and the areas to be served by the proposed Program grant. Maps or other graphic aids may be attached.
