

APPENDIX 7

**Patient-Provider Dispute Resolution Process
 Data Elements**

The Departments of the Treasury, Labor and Health and Human Services (the Departments) have issued the Requirements Related to Surprise Billing; Part II interim final rule ([86 FR 55980](#)), which provides protections for the uninsured. This rule requires the Secretary of HHS to establish a process referred to as the patient-provider dispute resolution process. Under this process, an uninsured (or self-pay) individual may seek a determination from a Selected Dispute Resolution (SDR) entity for any billed charges from a provider¹ or facility that are substantially in excess of the good faith estimate provided by that health care provider or facility in advance of receiving the items or services. These requirements provide for an SDR entity to review and make an independent, binding determination of the payment amount for items and services. The SDR entity must be certified by the Secretary under 45 CFR 149.620(d). HHS intends to contract with between 1 and 3 SDR entities that meet the certification requirements outlined in 45 CFR 149.620(d), rather than pursue an open certification process as is the case for certified Independent Dispute Resolution (IDR) entities in the federal IDR process.

The table below identifies for purposes of the PRA data elements that an uninsured (or self-pay) individual, provider, or facility is required to include in the patient-provider dispute resolution process under 45 CFR 149.620.
