

Community Development Financial Institutions Fund, Department of the Treasury

Supporting Statement – Part A
Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery
OMB Control Number 1559-0041

A. Justification

1. Circumstances necessitating collection of information

Executive Order 12862 directs Federal agencies to provide service to the public that matches or exceeds the best service available in the private sector. In order to work continuously to ensure that our programs are effective and meet our customers' needs, the Community Development Financial Institutions Fund (CDFI Fund) seeks to obtain OMB approval of a generic clearance to collect qualitative feedback on our service delivery.

This collection of information is necessary to enable the CDFI Fund to garner customer and stakeholder feedback in an efficient, timely manner, in accordance with our commitment to improving service delivery. The information collected from our customers and stakeholders will help ensure that users have an effective, efficient, and satisfying experience with the CDFI Fund's programs. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the CDFI Fund and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management. It will not yield quantitative results that can be generalized to population of study.

2. Method of collection and use of data

Improving CDFI Fund programs requires ongoing assessment of service delivery, by which we mean systematic review of the operation of a program compared to a set of explicit or implicit standards, as a means of contributing to the continuous improvement of the program. The CDFI Fund will collect, analyze, and interpret information gathered through this generic clearance to identify strengths and weaknesses of current services and make improvements in service delivery based on feedback. The solicitation of feedback will target areas such as: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the CDFI Fund's services will be unavailable.

The CDFI Fund will only submit a collection for approval under this generic clearance if it meets the following conditions:

- Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency (if released, procedures outlined in Question 16 will be followed);
- Information gathered will not be used for the purpose of substantially informing influential policy decisions;¹

¹ As defined in OMB and agency Information Quality Guidelines, "influential" means that "an agency can reasonably determine that dissemination of the information will have or does have a clear and substantial impact on important public policies or important private sector decisions."

- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study;
- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future; and
- With the exception of information needed to provide remuneration for participants of focus groups and cognitive laboratory studies, personally identifiable information (PII) is collected only to the extent necessary and is not retained.

If these conditions are not met, the CDFI Fund will submit an information collection request to OMB for approval through the normal PRA process.

To obtain approval for a collection that meets the conditions of this generic clearance, a standardized form will be submitted to OMB along with supporting documentation. The submission will have automatic approval, unless OMB identifies issues within 5 business days.

The types of collections that this generic clearance covers include, but are not limited to:

- Customer comment cards/complaint forms
- Small discussion groups
- Focus Groups of customers, potential customers, delivery partners, or other stakeholders
- Cognitive laboratory studies, such as those used to refine questions or assess usability of a website;
- Qualitative customer satisfaction surveys (e.g., post-transaction surveys; opt-out web surveys)
- In-person observation testing (e.g., website or software usability tests)

The CDFI Fund has established a manager to serve for this generic clearance and will conduct an independent review of each information collection to ensure compliance with the terms of this clearance prior to submitting each collection to OMB.

3. Use of Information Technology

The CDFI Fund will collect information electronically and/or use online collaboration tools to reduce burden.

4. Efforts to identify duplication

The CDFI Fund will ensure no similar data is gathered or maintained by the CDFI Fund or are available from other sources known to the CDFI Fund.

5. Impact on small entities

Small business or other small entities may be involved in these efforts; however, the CDFI Fund will minimize the burden on them of information collections approved under this clearance by sampling,

asking for readily available information, and using short, easy-to-complete information collection instruments.

6. Consequences of less frequent collection and obstacles to burden reduction

Without this type of feedback, the CDFI Fund will not have timely information to adjust services to meet customer needs.

7. Circumstances requiring special information collection

Not applicable.

8. Consultation with Persons outside the Agency

In accordance with 5 CFR 1320.8(d), a 60-day notice for public comment was published April 14, 2022, 82 FR 22283, in the Federal Register. No comments were received.

9. Provision of payment to respondents

No payments or gifts will be made to respondents.

10. Assurance of confidentiality

The CDFI Fund is subject to all Federal regulations with respect to confidentiality of information. Access to data submitted in response to information collections will be limited to CDFI Fund staff and, if applicable, designated contractors who are subject to all Federal regulations and have completed annual privacy and cybersecurity training.

11. Justification of sensitive questions.

No questions of a sensitive nature will be asked through this information collection. No personally identifiable information will be collected.

12. Estimate of the hour burden of information collection.

A variety of instruments and platforms will be used to collect information from respondents. The annual burden hours requested (10,000) are based on the number of collections we expect to conduct over the requested period for this clearance.

Estimated Annual Reporting Burden				
Type of Collection	Number of Respondents	Annual Frequency per Response	Hours per Response	Total Hours
Customer Feedback Surveys	10,000	1	1	10,000

13. Estimate of total annual cost burden to respondents

There are no additional capital, start-up or ongoing operational, or maintenance costs associated with information collection.

14. Estimate of annualized cost to the Government

Annual costs to the Government consist of the staff time associated with implementing information collections, reviewing information, and reporting results. It is not possible to accurately estimate the annualized cost to the Government of staff time due to variations in staff size, grades, and level of effort over the course of a given year.

15. Any program changes or adjustments

There are no adjustments or program changes from the previous approval.

16. Plans for information tabulation and publication

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. Findings will be used for general service improvement, but are not for publication or other public release.

Although the Agency does not intend to publish its findings, the Agency may receive requests to release the information (e.g., congressional inquiry, Freedom of Information Act requests). The Agency will disseminate the findings when appropriate, strictly following the Agency's "Guidelines for Ensuring the Quality of Information Disseminated to the Public," and will include specific discussion of the limitations of the qualitative results discussed above.

17. Reasons for not displaying expiration date of OMB approval

Not applicable.

18. Explanation of exceptions to certification statement

Not applicable.
