Abstract: The New Source Performance Standards (NSPS) for Storage Vessels for Petroleum Liquids for Which Construction, Reconstruction or Modification Commenced After June 11, 1973 and Prior to May 19, 1978 (40 CFR part 60, subpart K) apply to existing facilities for which construction, reconstruction, or modification commenced after June 11, 1973 and prior to May 19, 1978 that store petroleum liquids in storage vessels with a storage capacity greater than 151,416 liters (40,000 gallons), including: storage vessels with capacity greater than 151,416 liters (40,000 gallons), but not exceeding 246,052 liters (65,000 gallons). In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance and are required of all affected facilities subject to NSPS.

Form Numbers: None.

Respondents/affected entities:

Owners and operators of storage vessels subject to 40 CFR part 60, subpart K.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart K)

Estimated number of respondents: 281 (total).

Frequency of response: Occasionally.

Total estimated burden: 1,310 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$154,000 (per year), which includes \$0 for annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: The increase in burden from the most-recently approved ICR is due to an adjustment. The previously approved ICRs (1797.08, 1797.07) relied on information from the 2011 Petroleum Refinery ICR for estimates of facilities with storage tanks subject to 40 CFR part 60, subpart K, which was the best source of information at that time. However, this ICR updates the number
