Warning: HUD will prosecute false claims and statements. Conviction may result in criminal and/or civil penalties. (18 U.S.C. 1001, 1 0 10, 1012; 31 U.S.C. 3729, 3802).

This form must be complete and legible and must be reproduced to include all three pages.

Executive Order 11988 and HUD environmental regulations (24 CFR Part 51) require builders who build newly constructed properties s to ensure that the property is not affected by: flood hazards, noise, runway clear zones, explosive/flammable materials storage hazards, toxic waste hazards, and other foreseeable hazards that may affect the site. HUD requires this information to determine whether the site/location factors would adversely affect the dwelling or homeowner. A response is required whenever a builder builds new properties. Confidentiality is not applicable.

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. For addition information or questions please call 202-402-2657. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

Instructions for Builder's Certification, form H

Item 1. Site Analysis: All builders must answer all the questions in this item. An addendum may be added, if necessary, to provide a full explanation about any of the site conditions listed.

a. **Flood Hazards:** HUD prohibits new construction in Special Flood Hazard Areas unless there is a Letter of Map Amendment (LOMA), a Letter of Map Revision (LOMR), or an Elevation Certificate in accordance with 24 CFR 200.926d(c)(4) provided to the lender.

Items 1b.-f The builder must provide this information for all properties. If the property is a condominium, the builder may have to mitigate the site issue if the project has not yet been approved by HUD.

b. Noise: Self-explanatory.

c. Runway Clear Zones/Clear Zones: If the property is located in a Runway Clear Zone / Clear Zone, the lender must require, as a condition of borrower approval, that the borrower will sign a statement acknowledging receipt of the notification required by 24 CFR 51.303(a)(3).

d. **Explosive/Flammable Materials Storage Hazard:** Self-explanatory. e. **Toxic Waste Hazards:** Self-explanatory.

f. Foreseeable Hazards or Adverse Conditions: Self-explanatory.

Items 2 - 8: The builder/builder's agent must complete these items as follows:

Items 2, 3&4. Place an "X" in the box in Items 2, 3 and 4. The certified builder must complete Items 5 thru 8 as follows:

Item 5. The local/State code in Item 5 is the accepted code for a locality. The additional requirements needed from the Table in 24 CFR 200.926c, to supplement a partially acceptable local code, must be shown in Item 5.

Item 6. When the whole CABO Code is used as the HUD referenced code in jurisdictions with "no code" or an "unacceptable code," place an "X" in the box in Item 6 and place the word "All" in the space.

Item 7. Place an "X" in the box on line 7, and, if applicable name equivalent code.

Item 8. If the dwelling is a manufactured (mobile) home, place an "X" in the box in Item 8. Properly complete lines 4 through 7 for all "foundation and site work." Insert the HUD label number(s) in the box provided.

Items 9 & 10. The builder or the builder's agent must complete and sign these items. If the builder's agent completes and signs these items the builder's agent is certifying that builder's agent has the knowledge and experience to determine whether the plans and specifications comply with HUD/FHA requirements set forth in 24 CFR 200.926d and with other applicable HUD requirements in 24 CFR200.926(d)(1) and (2). The builder's agent is further certifying that the information about the site is accurate to builder's agent's best knowledge and belief.

Item 11. If a builder has sold or intends to sell five (5) or more newly constructed properties within a twelve (12) month period, the builder is required to have one of the following:

a. Be in good standing to a Voluntary Affirmative Marketing Agreement

b. Have a HUD approved Affirmative Fair Housing Marketing Plan (AFHMP); or

c. Have a contract with a Marketing Agent to implement its approved AFHMP; or a contract with a Marketing Agent with signatory to a National Association of

d. Certify to the requirements which are hereby listed, taken from 24 CFR

Items 12 & 13. The builder must complete and sign Items 12 and 13. The certification is self-explanatory. All changes to the original form must be initialed and dated by the builder.

Appraiser / Direct Endorsement Lender's Responsibility

FHA Roster Appraiser. The appraiser must receive a fully executed form HUD-92541 before performing the appraisal on proposed or under construction properties or properties less than one year old and never occupied.

The appraiser must review Item 1 and note in the Appraisal Report any discrepancies between the information in Item 1 and the actual conditions observed on site. The appraiser must take into consideration the effects of any site conditions on the value of the property.

Direct Endorsement Underwriter. The DE Underwriter must review the Appraisal Report and the Builder Certification as part of the underwriting process, taking into consideration the effect of any site conditions on the value of the property. Page 1 of this form must be complete and legible. Only the builder or the builder's agent is authorized to complete or change this form. The DE Underwriter cannot change and/or modify this certification form.
