

Practice Session Tutorial Video

Reminder

- Do not change the volume until study complete
- Exit the Test at any time
- If you exit, you will have to calibrate again upon re-entering the test
- You will have time for breaks
- Six-hour limit to idle time

Step 1: Listen to Sound

- Listen to the entire sound
- You will be unable to rate the sound until complete
- Do not refresh or close the window

Sound is currently playing...

Remember: Do not adjust your device volume until the end of this study.

Not at all annoying Slightly annoying Moderately annoying Very annoying Extremely annoying

CONFIRM RESPONSE

Continue

Step 2: Annoyance Rating

- Let sound completely play
- Choose location on scale that reflects how annoying the sound was to you
- Use your mouse
- Red triangle will appear

Sound is currently playing...

Remember: Do not adjust your device volume until the end of this study.

Not at all annoying Slightly annoying Moderately annoying Very annoying Extremely annoying

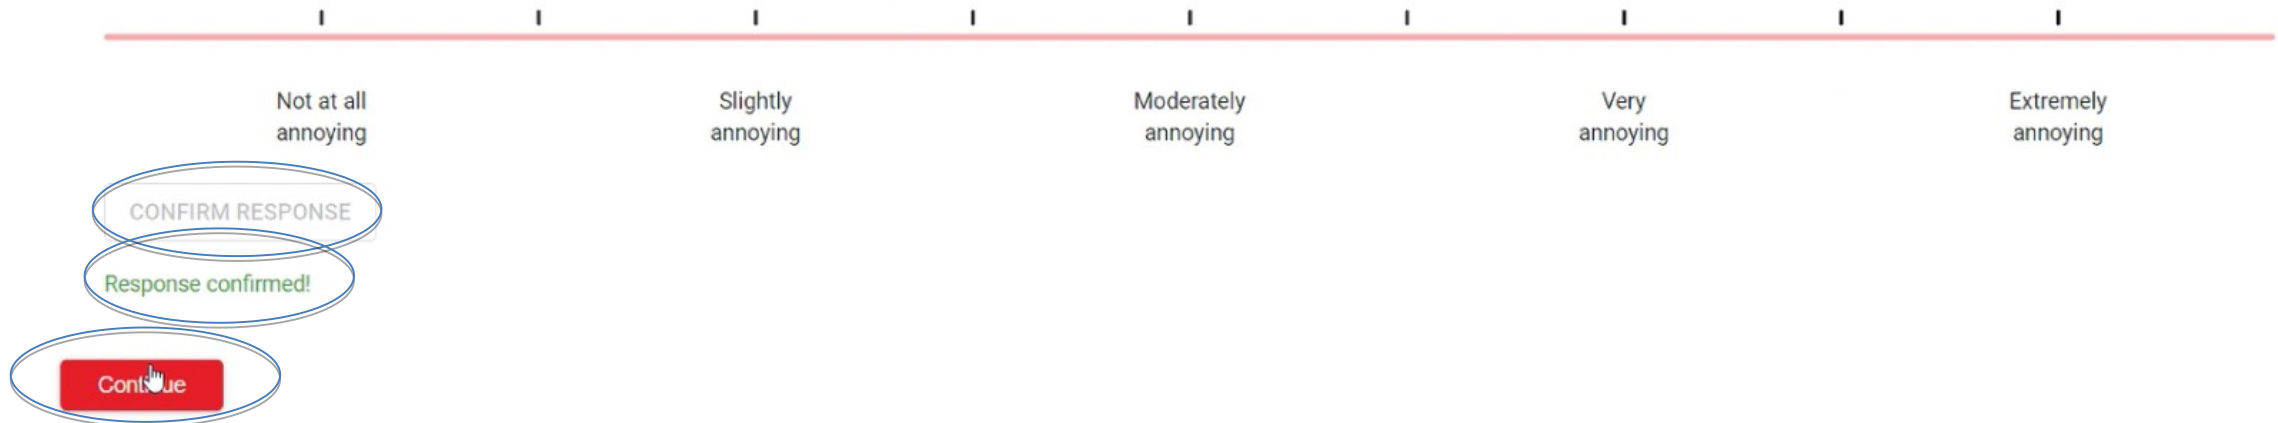

CONFIRM RESPONSE

Continue

Step 3: Confirm Response

- Finalize your adjustments on scale bar
- Select “Confirm Response”
- Receive confirmation of your response
- Select Continue

Imagine hearing this sound several times each day while outdoors and near your home, how annoying would this sound be to you?

The image shows a horizontal scale bar with eight tick marks. Below the scale, five labels are positioned: "Not at all annoying" (under the first tick), "Slightly annoying" (under the second tick), "Moderately annoying" (under the fourth tick), "Very annoying" (under the sixth tick), and "Extremely annoying" (under the eighth tick). To the left of the scale, there are three overlapping ovals. The top oval contains the text "CONFIRM RESPONSE". The middle oval contains the text "Response confirmed!". The bottom oval contains a red button with the text "Continue" and a hand cursor icon.

Step 4: Practice Session Completed

- Continue on to the Main Study.
- Good time for a break
- Distractions/Quiet
- For troubleshooting, contact proctor HMMH, 24/7
 - Email NasaSoundStudy@hmmh.com
 - Phone (781) 852-3199

You have completed the practice session for the NASA Psychoacoustic Sound Study.

Click the button below to continue. Note that a sound should begin playing automatically once you navigate to the next page.
