    Description
		X	X

LSAMP: Number of Respondents, Frequency of Response, and Annual Hour Burden

The estimated average number of annual respondents is 643 (112 project PIs/co-PIs and 531 LSAMP institution personnel), with an estimated annual response burden of 10,288 hours. The Web-based collection is an annual activity of the LSAMP program. Respondents are PIs/co-PIs and institution personnel; generally, two or more co-PIs per award and one project personnel member per alliance institution completes the questionnaire. The estimated annual hour burden per respondent was determined using the burden information reported by respondents from the last two collection cycles.

The burden estimates for each type of respondent are outlined below:

Respondent Type	Estimated Average Annual No. of Respondents	Estimated Average Annual Burden Hours Per Respondent	Estimated Annual Burden Hour Total
PIs/co-PIs	112	16	1,792
Institution personnel	531	16	8,496
Total	**643**		10,288

LSAMP: Hour Burden Estimates by Each Form and Aggregate Hour Burdens

There is only one form. This form accounts for the entire annual response burden of 10,288 hours. The annual burden by form was calculated as follows:

Form Type	Respondent Type	No. of Respondents	Burden Hours Per Respondent	Total Burden Hours
LSAMP data collection form	PIs, co-PIs, institution personnel	643	16	10,288
Total		**643**		**10,288**

LSAMP: Estimates of Annualized Cost to Respondents for the Hour Burdens

The overall annualized cost to the respondents is estimated to be $349,856. The estimated hourly rate for PIs/co-PIs, who are generally university professors, is based on a report from the American Association of University Professors, "The Annual Report on the Economic Status of the Profession, 2020-2021," Survey Report Table 1. According to this report, the average salary across all academic ranks and across all types of doctoral-granting institutions (public, private-independent, religiously affiliated) was $109,428. The rate for institution personnel was established by using the Bureau of Labor Statistics' May 2017 National Occupational Employment and Wage Estimates, which estimates the mean annual wage for those in Education, Training, and Library Occupations to be $62,140. Each of these figures was then divided by the number of standard annual work hours (2,080) to determine an average hourly rate for each respondent type. Those rates and the corresponding total annual cost are indicated in the table below:

Respondent Type	No. of Respondents	Burden Hours Per Respondent	Average Hourly Rate	Estimated Annual Cost
Project PIs/co-PIs	112	16	$53	$94,976
Institution personnel	531	16	$30	$254,880
Total	**643**			**$349,856**

LSAMP: Estimates of Costs to the Federal Government

Computing the annualized cost to NSF for the LSAMP data collection was done by taking the projected budget for the next three years and calculating the cost for each of the following operational activities involved in producing, maintaining, and conducting the data collection:

Operational Activities	Cost Over Three Years
System Development (includes initial development of the database and Web-based application, and later changes requested by the program, e.g., increased reporting tools, additional validations)	$165,183
System Maintenance, Updates, and Technical Support (system requires updates each year before opening the collection; maintenance is required to keep the system current with technology, e.g., database servers, operating systems)	$297,330
Data Collection Opening and Support (e.g., online and telephone support to respondents and contacting respondents to encourage completion of the questions), Reporting (as defined by HRD), and Follow-up Activities (e.g., providing data to other consultants)	$198,220
Three-Year Total for All Operational Activities	$660,733

The annualized cost was computed as one-third of the total three-year cost; thus, the annualized cost to NSF for the LSAMP data collection is $220,244.

Highlighted in blue are items which will be discontinued during the period of the renewal.
Highlighted in yellow are proposed new items.
Highlighted in grey are item wordings which NSF proposes, with OMB approval, to change. Previous text is marked with ~~strikethrough~~.

Alliance Obstacles (text box)

Alliance Budget:

For each of the Senior Personnel provide:
      Number of Personnel (1)
      Number of Person Months
      Number of Person Months: Academic Year
      Number of Person Months: Summer
      NSF Dollar Amount
      Matching Dollar Amount

For each category of Other Personnel provide:
      Number of Personnel (1)
      Number of Person Months
      Number of Person Months: Academic Year
      Number of Person Months: Summer
      NSF Dollar Amount
      Matching Dollar Amount

      Categories of Other Personnel are:
            Post Doctoral Associates
            Other Professionals
            Graduate Students
            Undergraduate Students
            Secretarial/Clerical
            Other staff

For Fringe Benefits provide:
      NSF Dollar Amount
      Matching Dollar Amount

For each Permanent Equipment provide:
      Cost
      NSF Dollar Amount
      Matching Dollar Amount

Travel:
For Domestic Travel provide:
      NSF Dollar Amount
      Matching Dollar Amount

For Foreign Travel provide:
      NSF Dollar Amount
      Matching Dollar Amount

For each category of Participant Supplemental Costs provide:
        Cost
        Count

        Participant Supplemental Categories are:
                Stipends
                Travel
                Subsistence
                Other

For Residual Funds provide:
        NSF Dollar Amount
        Matching Dollar Amount

(All other amounts shown on the budget screen are calculated by the system.)
