Privacy & Public Burden Statements

The Federal Government has a continuing commitment to monitor its awards to identify and address any inequities based on gender, race, ethnicity, or disability of the principal investigators (PIs), co-PIs, trainees, or other participants.

Information from this data collection system will be retained by the National Science Foundation (NSF), a Federal agency, and will be an integral part of its Privacy Act System of Records in accordance with the Privacy Act of 1974 and maintained in the Education and Training System of Records 63 Fed. Reg. 264, 272 (January 5, 1998). All individually identifiable information supplied by individuals or institutions to a Federal agency may be used only for the purposes outlined in the system of records notice and may not be disclosed or used in identifiable form for any other purpose, unless otherwise compelled by law. These are confidential files accessible only to appropriate NSF officials, their staffs, and their contractors responsible for monitoring, assessing, and evaluating NSF programs. Only data in highly aggregated form or data explicitly requested "for general use" will be made available to anyone outside of NSF for research purposes. Data submitted will be used in accordance with criteria established by NSF for monitoring research and education grants, and in response to Public Law 99-383 and 42 USC 1885c. Date of birth will be maintained in accordance with the requirements of the Privacy Act of 1974.

Submission of the requested information is voluntary. Failure to provide full and complete information, however, may reduce the possibility for continuing support through the award/project subject to this survey. Pursuant to 5 CFR 1320.5(b), an agency may not conduct or sponsor, and a person is not required to respond to, an information collection unless it displays a valid Office of Management and Budget (OMB) control number. The OMB control number for this collection is **3145-0226**. The annual public reporting burden for this collection of information is estimated to average 12 hours per award, including the time for reviewing instructions. Send comments regarding this burden estimate and any other aspect of this collection of information, including suggestions for reducing this burden, to Suzanne Plimpton, Reports Clearance Officer for OMB Collection 3145-0226 (S-STEM Program), National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230.

Note: This Web-based application uses "session variables" to allow you to complete the requested information and send it to an NSF server. These session variables require that your browser be set to accept cookies. If you attempt to login to the input portion of this application and you receive a blank page or an incomplete page, it is likely that your browser is not set to accept cookies. The session variables are used only for the duration of the individual session and then only for navigation between pages and the server database. No personally identifiable information is collected or retained by NSF after the session is complete.

Welcome to the National Science Foundation's Scholarships in Science, Technology, Engineering, and Mathematics (S-STEM) Scholarship Reporting Site.

New Degree Program option

On May 15, 2014, a new Degree Program option was added for **Concurrent Bachelor's/Master's**, which represents dual/combined/concurrent degree programs that allow students to pursue a bachelor's degree and master's degree at the same time. Degree Program can be found in the [Student Demographics](#) section for each student.

The S-STEM program solicitation requires each PI to provide data about S-STEM scholars for every semester/quarter in which they received S-STEM support. Information should be provided within 30 days of the beginning of each semester/quarter but no later than two weeks after the end of the semester/quarter.

Please use the links below to provide new or updated data:

1. [Award Details and Program Activities](#)
2. [Student Demographics](#)
3. [Semester/Quarter Details](#)
4. [Follow-up Questions](#)
5. [Submit Your Data](#)

The table below shows the data-entry status of student data you have entered so far.

- All students automatically carry forward to later semesters until they exit.
- Follow-up questions appear only after students have graduated.

Student Demographics

The table below displays all students entered so far for your award. Please review the list and add new/additional students as needed so that all student scholarship recipients for every term of your active award (including the current semester/quarter) are included. You may sort the table by clicking on any column heading that contains a link. Click on the same column heading again to reverse the sort order. You may also filter the table to display only students who have a particular current status by selecting a status value from the Show dropdown list and clicking on **Filter**. Click on **Edit** next to a student's name to update the student's demographic data. Click on **Add New Student** to add a new student. Click on **Return to Main Menu** to return to the Main Menu screen.

You may also [upload your data](#) using a Microsoft Excel spreadsheet.

You may also [resolve duplicate students](#) who may already exist in the system.

You may also use the [Student Summaries](#) feature to view all data that have been entered for a specific student.

You may also download an [example student release form template](#) (Microsoft Word document).

After entering your student demographic data, please continue to section [3. Semester/Quarter Details](#).

The table below displays all students for the selected semester/quarter. You may sort the table by clicking on any column heading that contains a link. Click on the same column heading again to reverse the sort order. You may also filter the table to display only students who have a particular student status by selecting a status value from the Show dropdown list and clicking on **Filter**. Students are automatically carried forward until they exit the program (i.e., graduate, transfer, leave the program).

If a student listed for the current semester/quarter exited the program during or at the end of a previous semester/quarter, please return to that semester/quarter and update the student's status (e.g., by using the **previous semester** link). This will ensure that only students who are still active in the program are carried forward to the current semester/quarter.

Click on **Edit** next to a student's name to update the semester/quarter details for that student. Click on **Add a New Student** to add a new student. You may view other semesters/quarters (if applicable) by clicking on **previous semester** or **next semester**. Download Your Data

Click on **Download Your Data** to download all data associated with your award into a Microsoft (MS) Excel spreadsheet. The file will contain four worksheets: one with instructions for using the Offline Version in Excel, one with your student demographics, one with your semester/quarter details, and one with your follow-up questions. If you do not have MS Excel installed on your computer, you may download a [free MS Excel Viewer](#) from Microsoft. Click on **Return to Main Menu** to return to the Main Menu screen.

Please note that this is the same file that you are asked to download in Step 1 when using the [Upload Your Data](#) feature. If you enter new data or edit existing data online after you download this file, then you must download a new Offline Version in Excel before you can upload the spreadsheet with new data.

Upload Your Data

This feature allows you to upload **all** your student data, including student demographics, semester/quarter details, and follow-up questions. You can report new data and revise existing data using the Offline Version in Excel.

Do not delete or edit the name of any previously reported students when using this feature. This should be done manually online. If you need any records deleted, please contact S-STEM Technical Support.

To use this feature, please perform the following steps in order:

STEP 1. Download and Save the Offline Version in Excel

Download and save the Offline Version, which contains all the student data you have reported so far.

[Download the S-STEM Offline Version in Excel](#)

Be sure to **save** the file and make note of its location.

Warning: If you enter new data online before you complete Step 2b, then you must repeat Step 1 to ensure that your Offline Version contains your latest data.

STEP 2a. Enter Your Data into the Offline Version in Excel

Enter and save your new and revised data into the Offline Version in Excel by following the instructions found on the first worksheet. Be sure to save your revisions using **Excel 97-2003** format only.

STEP 2b. Upload Your Revised Offline Version in Excel

Click on **Browse** to locate your revised Offline Version in Excel, and then click on **Upload Your Revised Offline Version in Excel**.

STEP 3. Confirm All Revisions

All data from your uploaded spreadsheet will be displayed with the revisions highlighted. Please review the data and click on **Confirm and Save All Revisions** or **Cancel and Return to Step 2**. Your data will not be stored in the S-STEM database until you confirm all revisions.
