- Did you grow any citrus, fruit, pineapple, tropical fruit, or tropical specialties (listed below) during 2021?
  - Tropical Specialties (Cashews, Galangal (Thai Ginger), Ginger Root, Mamaki Tea, Moringa Oleifera, Noni, Olive, Tea (*Camellia Sinensis*), Turmeric, Vanilla Bean, Other)
  - EXCLUDE Avocado, Coffee, Macadamia Nuts, and Papaya. These crops are included in separate surveys.

7300     Yes                                     No - Go to Section 4

2. During 2021, what was the largest (peak) number of hired workers, including paid family members, on the payroll on any one day? .....  None

3. Please report your total acres in this operation. (INCLUDE pasture, idle land, etc.) .....  ACRES

**This page is intentionally left blank**

## Reporting Instructions:

- Report the total acres of trees, berries, and plants in whole and tenth acres.
- In the Total acreage, trees or plants, INCLUDE bearing age and nonbearing age acres, trees or plants, including those not harvested due to unsatisfactory prices, labor shortages, etc.
- For crops not listed in the tables, print the crop name in the first column under "Other" of corresponding table.
- Report the average farm price per pound for sales of crops produced and sold or moved from this operation during 2021, **excluding** commission and freight.
- Operations that process crops for sale should report only the **"farm"** value of the product sold.

Example: An operation that processes its noni fruit into juice would report only the value of the noni fruit that was harvested in 2021 and used to produce the juice, not the value of the juice sold in 2021. The same would be true for fruits, berries, or leaves that were processed into capsules, cider, jams, jellies, tablets, tea or wine.
