Fourth Access, Participation, Eligibility and Certification Study
(APEC IV)
SFA DIRECTOR WEB SURVEY

1.

APPENDIX B12. (INSTRUMENT B3) SFA DIRECTOR WEB SURVEY

INFORMED CONSENT (C1)

Thank you for participating in the fourth Access, Participation, Eligibility and Certification Study Series (APEC-IV). The U.S. Department of Agriculture's (USDA) Food and Nutrition Service (FNS) has contracted with Westat to administer APEC IV. This SFA Director Survey will provide us with important information about the SFAs participating in the study.

Your responses to this survey will help us understand your SFA's participation in the National School Lunch Program (NSLP) and/or the School Breakfast Program (SBP), your SFA's participation in special counting and claiming Provisions (if applicable), how your SFA certifies students for free and reduced-price meals, how your SFA and schools record and account for meals served to students, and other relevant information about your SFA's processes.

The information you provide will be used for research purposes only. It will not be used to evaluate any single SFA or district and will only be used in aggregate.

Survey Consent Form

PURPOSE: Funded by the United States Department of Food and Agriculture (USDA) Food and Nutrition Service (FNS), the goal of the APEC IV study is to provide FNS with reliable, national estimates of improper payments in the National School Lunch Program (NSLP) and the School Breakfast Program (SBP) in school year (SY) 2023-2024. The data collected will be used to:

- Generate a national estimate of the annual amount of improper payments to confirm resources are going to the intended recipients.
- Examine the student (household), school, and school food authority (SFA) characteristics that may facilitate success in processing applications and meals claimed for reimbursement.
- Determine whether there are differences in error rates among SFAs due to differences in their applications for free or reduced price meals.

Westat, a research organization, has a contract with the USDA FNS to conduct the APEC IV study.

HOW YOU WERE SELECTED: The study team used a scientific method to randomly pick your school food authority (SFA) from a list of SFAs throughout the United States.

INFORMATION TO BE COLLECTED: We will ask questions about your SFA's participation in the NSLP and/or the SBP, your district's participation in special Provisions (if applicable), how you certify students for free and reduced-price meals, how you and your schools record meals served to students, and other relevant information about your district's processes.

RISKS AND PRIVACY: There is little risk to being part of this study. We use all data we collect only for the purposes we describe. Many steps are taken to keep your data private to the full extent allowed by law. Any reports we prepare will combine your answers with those from other SFA directors in the study to summarize what we learn. Your name or SFA will never be in the reports we prepare. Nothing you report is connected to your SFA or will affect the benefits provided to your SFA. Participating in the survey may not help you individually, but it may help us better understand how to reduce error rates in the school meals programs.

STUDY COSTS AND COMPENSATION: There is no cost to you to complete this survey. You will not receive any compensation for completing this survey. The survey takes about 45 minutes.

VOLUNTARY PARTICIPATION: This web survey is part of the APEC IV research study. Section 28(c) of the Richard B. Russell National School Lunch Act requires SFAs

APPENDIX B12. (INSTRUMENT B3) SFA DIRECTOR WEB SURVEY

to cooperate with FNS research studies. However, your participation as an *individual* is voluntary. You may skip any question you do not wish to answer, and you can stop the survey at any time. Agreeing to participate does not waive any of your legal rights. Refusal to participate will not have any impact on your SFA or position as SFA staff.

QUESTIONS: If you have questions about the study, you may call [NAME], the study's Director of Operations, toll-free at [INSERT NUMBER]. If you have questions about your rights as a research participant, please call the Westat Human Subjects Protections office at 1-888-920-7631. Please leave a message with your full name, the name of this study (APEC IV), and a phone number including the area code. Someone will return your call as soon as possible.

CONSENT: I have read and understand this entire consent form and agree to participate in this SFA Director Survey as part of the APEC IV study.

Introduction

Q1. The following schools from your SFA were sampled for the APEC IV study.

<<SFA NAME>>

School Name	CEP Status

- If the CEP status listed above is not accurate for any of the schools, please click 'save and continue later', and contact us at schoolmealstudy@westat.com or [toll-free number]. We will update the school's CEP status in our records and reset your survey accordingly.
- If the CEP status listed above is correct for each school, click next to continue.

Q2a. Do all schools in your SFA participate in NSLP and/or SBP?

Yes.....1 (GO TO Q3)

Q2b. Since the focus of this research study is on the NSLP and SBP, we ask that you provide responses for the schools within your SFA that participate in the NSLP and/or SBP. This includes responses about the number of schools and enrolled students in your SFA (e.g., number of students enrolled in schools operating NSLP/SBP in your SFA).

If it is not possible to limit the school and student counts to students enrolled in schools participating in the NSLP and SBP, you may provide the counts for all students enrolled in your SFA.

Select the option below that best describes how you will complete the survey:

The counts will only reflect schools and students participating in NSLP and/or SBP1

The counts will reflect all schools and students in my SFA, including those in schools that do not participate in NSLP or SBP2

- No..... 2
- Don't know / Not Sure..... 3

SECTION B: PARTICIPATION IN PROVISIONS 2 AND 3

B1. Under Provision 2 or 3, schools establish claiming percentages in a ‘base year,’ and serve meals free to all students. After the base year, schools do not process applications nor track whether students receiving meals are approved for free or reduced-price meals for up to four years, with possible extensions under certain conditions.

Under Provision 2, the reimbursements received from USDA in a non-base year are based on the total number of meals served and claiming percentages by meal reimbursement type that were established in the base year.

Under Provision 3, the reimbursements are based on the total dollar reimbursement received during the base year and may be adjusted for changes in enrollment and inflation.

Any school participating in the National School Lunch Program or the Breakfast Program may apply to participate in Provision 2 or Provision 3.

Do any of the schools in your SFA participate in Provision 2 or Provision 3?

- Yes..... 1 (GO TO B2)
- No..... 2 (GO TO SECTION C)

SECTION C: Participation in CEP

The next questions are about schools participating in the **Community Eligibility Provision (CEP)**.

Under CEP, schools in high-poverty areas apply claiming percentages to the total number of reimbursable meals in the school(s) that elect CEP (individually or as a group). A school(s) that elects CEP will claim reimbursement based on the Identified Student Percentage (ISP), or the percentage of its enrolled students that are “identified students” -- directly certified or otherwise identified (e.g., homeless, migrants, runaways) without application. The CEP can be elected for four successive years for the entire local education agency (LEA), for a group(s) of schools within an LEA, or for an individual school in the LEA.

C1. Does your SFA have any schools participating in the Community Eligibility Provision (CEP)?

- YES..... 1
- NO..... 2 (GO TO SECTION D)

C2. Which source(s) did your SFA use to determine identified students? (SELECT ALL THAT APPLY.)

- Supplemental Nutrition Assistance Program (SNAP)1
- Temporary Assistance for Needy Families (TANF).....2
- Food Distribution Program on Indian Reservations (FDPIR).....3
- Head Start or Early Head Start participant.....4
- Migrant child.....5
- Runaway child.....6
- Homeless child.....7
- Foster child certified through means other than an application.....8
- Non-applicant children certified through means other than an application.....9
- Medicaid.....10
- Other (SPECIFY) _____.....11

SECTION D: DIRECT CERTIFICATION (CEP and Non-CEP Schools)

The next questions are about direct certification.

D1. Does your SFA conduct direct certification for students?

- YES..... 1
- NO..... 2 (GO TO SECTION E)

D2. In what year did your SFA begin conducting direct certification? Your best estimate is fine.

|_|_|_|_|
YEAR
0 Don't know

D3. Does your SFA use **State-level** matching to directly certify students?

With **State-level** matching, a State agency (usually Child Nutrition) has primary responsibility for developing and maintaining a system that matches school enrollment records for NSLP-participating schools with a list of children participating in SNAP. The State agency may also match against a list of children participating in TANF, Food Distribution Program on Indian Reservations (FDPIR), and Medicaid (in approved States), or considered to be migrant, homeless, foster and/or runaway. This system can be set up in a variety of ways. Some examples include:

- Districts upload enrollment information into a State-maintained computer or web-based system that conducts a match to a list of children in SNAP households. Students are directly certified on the basis of this match.
- A State agency matches State enrollment information with a State list of children in SNAP households. A list of students matched is provided to districts to complete the direct certification process.

- YES..... 1
- NO..... 2
- Don't know/Not Sure 9

D4. Does your SFA use **district-level** matching to directly certify students?

APPENDIX B12. (INSTRUMENT B3) SFA DIRECTOR WEB SURVEY

With **district-level** matching, school districts have primary responsibility for matching a list of children enrolled in their schools with a list of children from households receiving SNAP (and other programs listed above) provided by the State agency using a common identifier or identifiers. Districts may use manual methods or an automated or electronic system to match the records.

- YES..... 1
- NO..... 2 (GO TO SECTION E)
- Don't know/Not sure.....

D5. If students are directly certified using district-level matching, is this matching performed manually, is it automated using computer systems, or a combination of both?

- Manual matching..... 1
- Automated matching..... 2
- Combination of both..... 3

In addition to state-level or district-level matching, some school districts form local partnerships to help with direct certification. Examples include partnerships with homeless or runaway programs.

D6. Does your SFA receive data from a local partner to help with your district-level direct certification efforts?

- YES..... 1
- NO..... 2 (GO TO QUESTION E8)

D7. What population(s) do those local-level partners work with? (Mark all that apply)

- SNAP participants..... 1
- TANF participants..... 2
- FDPIR participants..... 3
- Migrant youth..... 4
- Homeless youth..... 5
- Foster youth..... 6
- Runaway youth..... 7
- Other (SPECIFY)..... 8
