

Note to reviewers: This document contains screenshots of the NEARS data reporting system, with the exception of the new SVI question we are adding. Users will begin collecting this information during their investigations January 1, 2023. This question will be added to the web-based data entry system just prior to that time to accommodate programmer budgets and scheduling.

Part I: Outbreak General Characterization

Outbreak - General Characterization

Description

1. Did the exposure(s) take place in a single or multiple locations (ex: one restaurant or two or more restaurants, one restaurant or a restaurant and a school)?

- Single
 Multiple

2. Did the exposure(s) occur in a single state or multiple states? ⓘ

- Single
 Multiple

3. Did the exposure(s) happen in a single county/township/parish or multiple counties/townships/parishes?

- Single
 Multiple

4. How many food service establishment locations within your jurisdiction were associated with this outbreak? ⓘ

5. How many environmental assessments were conducted at food service establishments in your jurisdiction as a part of this outbreak? ⓘ

5a. Why were no environmental assessments conducted at food service establishments in your jurisdiction as a part of this outbreak?

6. How many non-food service establishments in your jurisdiction were associated with this outbreak? ⓘ

6a. How many environmental assessments were conducted at non-food service establishments in your jurisdiction as part of this outbreak? (Non-food service establishments include food distribution centers, warehouses, manufacturers, processing plants, or farms.) ⓘ

7. Was a primary agent identified in this outbreak?

Yes

No

Was the agent identified suspected or confirmed?

uses of the outbreak (ex: order of environmental antecedents).

No

15. What were the environmental antecedent(s) of this outbreak? (Check all that apply)

Select a value...

- Employees or managers are not following the facility's process
- Equipment is improperly used
- Food not treated as TCS (may include non-TCS foods that have been contaminated)
- High turnover of employees or management
- Improperly sized or installed equipment for the facility
- Insufficient capacity of equipment (not enough equipment for the processes)
- Insufficient process to mitigate the hazard
- Lack of a food safety culture/ attitude towards food safety
- Lack of needed supplies for the operation of the restaurant
- Lack of oversight of employees/ enforcement of policies
- Lack of preventative maintenance on equipment
- Lack of sick leave or other financial incentives to adhere to good practices
- Lack of training employees on specific processes
- Language barrier between management and employees
- Low/insufficient staffing
- Poor facility layout
- Other (Please describe)

16. Briefly describe any other information about the underlying causes of the outbreak (ex: order of environmental antecedents).

17. Were any control measures implemented for this outbreak?

16. Briefly describe any other information about the underlying causes of the outbreak (ex: order of environmental antecedents).

17. Were any control measures implemented for this outbreak?

- Yes
- No

Part VII: Contributing Factors

Contributing Factors

Add each identified contributing factor in this outbreak. Contributing factors are defined in the Definitions of Factors Contributing to Outbreaks section of the NEARS Instruction Manual.

[+ Add Contributing Factor](#)

Factor	Primary	Explanation	Occurrence
No data			

Contributing Factor

×

1. Which contributing factor was identified? *

Select...

2. In your judgment, was this the primary contributing factor for this outbreak?

- Yes
 No

3. Briefly explain why this is a contributing factor in this outbreak.

4. When did this factor most likely occur?

Select...

- Before vehicle entry into the foodservice establishment
- While the vehicle was at the foodservice establishment
- After the vehicle left the foodservice establishment
- Unknown

Contributing Factor

1. Which contributing factor was identified? *

Select...

- C1 - Toxic substance part of the tissue
- C2 - Poisonous substance intentionally/deliberately added
- C3 - Poisonous substance accidentally/inadvertently added (e.g., sanitizer or cleaning compound)
- C4 - Addition of excessive quantities of ingredients that are toxic in large amounts (e.g., niacin poisoning in bread)
- C5 - Toxic container (e.g., galvanized containers with acid foods)
- C6 - Contaminated raw product—food was intended to be consumed after a kill step
- C7 - Contaminated raw product—food was intended to be consumed raw or undercooked/ underprocessed (e.g., raw shellfish, produce, eggs)
- C8 - Foods originating from sources shown to be contaminated or polluted (such as a growing field or harvest area) (e.g., shellfish)
- C9 - Cross-contamination of ingredients (cross-contamination does not include ill food workers)
- C10 - Bare-hand contact by a food handler/worker/preparer who is

Contributing Factor

1. Which contributing factor was identified? *

Select...

- C10 - Bare-hand contact by a food handler/worker/preparer who is suspected to be infectious (e.g., with ready-to-eat-food)
- C11 - Glove-hand contact by a food handler/worker/preparer who is suspected to be infectious (e.g., with ready-to-eat-food)
- C12 - Other mode of contamination (excluding cross-contamination) by a food handler/worker/preparer who is suspected to be infectious
- C13 - Foods contaminated by non-food handler/worker/preparer who is suspected to be infectious
- C14 - Storage in contaminated environment (e.g., storeroom, refrigerator)
- C15 - Other source of contamination (please describe)
- P1 - Food preparation practices that support proliferation of pathogens (during food preparation)
- P2 - No attempt was made to control the temperature of implicated food or the length of time food was out of temperature control (during food service or display of food)
- P3 - Improper adherence of approved plan to use time as a public

Contributing Factor

1. Which contributing factor was identified? *

- P3 - Improper adherence of approved plan to use time as a public health control
- P4 - Improper cold holding due to malfunctioning refrigeration equipment
- P5 - Improper cold holding due to an improper procedure or protocol
- P6 - Improper hot holding due to malfunctioning equipment
- P7 - Improper hot holding due to improper procedure or protocol
- P8 - Improper/slow cooling
- P9 - Prolonged cold storage
- P10 - Inadequate modified atmosphere packaging (e.g., vacuum-packed fish, salad in gas-flushed bag)
- P11 - Inadequate processing (e.g., acidification, water activity, fermentation)
- P12 - Other situations that promote or allow microbial growth or toxic production (please describe)
- S1 - Insufficient time and/or temperature during cooking/heat

Contributing Factor

1. Which contributing factor was identified? *

- P9 - Prolonged cold storage
- P10 - Inadequate modified atmosphere packaging (e.g., vacuum-packed fish, salad in gas-flushed bag)
- P11 - Inadequate processing (e.g., acidification, water activity, fermentation)
- P12 - Other situations that promote or allow microbial growth or toxic production (please describe)
- S1 - Insufficient time and/or temperature during cooking/heat processing (e.g., roasted meats/poultry, canned foods, pasteurization)
- S2 - Insufficient time and/or temperature during reheating (e.g., sauces, roasts)
- S3 - Insufficient time and/or temperature control during freezing
- S4 - Insufficient or improper use of chemical processes designed for pathogen destruction
- S5 - Other process failures that permit the agent to survive (please describe)
- Unknown

Part II: Establishment Description

Establishment - EST01

Description

1. Date the establishment was identified for an environmental assessment.

2. Date of first contact with establishment management.

3. Number of visits to the establishment to complete this environmental assessment.

4. Number of contacts with the establishment other than visits (ex: phone calls, phone interviews with staff, email) to complete this environmental assessment:

5. Facility Type:

Select a value...

6. **Camp**

7. Caterer

7. Church

7. Correctional Facility

7. Cottage/home-based food operation

8. Daycare center

8. Feeding site

8. Food Cart

9. Grocery store

9. Hospital

9. Mobile Food Unit

10. Nursing home

10. Other

10. Restaurant

11. Restaurant in a Supermarket

11. School Food Service

11. Temporary Food Stand

12. Workplace cafeteria

6. How many critical violations/priority items/priority foundation items were noted during the last routine inspection?

7. Was a translator **needed** to communicate with the kitchen manager during the environmental assessment?

Yes

No

7a. Was a translator **used** to communicate with the kitchen manager?

Yes

No

8. Was a translator **needed** to communicate with the food workers during the environmental assessment?

Yes

No

8a. Was a translator **used** to communicate with the food workers?

Yes

No

9. Establishment type: 

Select a value... 

- 10. **Complex**
- Cook-Serve
- Prep-Serve

11. Does the establishment serve raw or undercooked animal products?

10. Do customers have direct access to unpackaged food such as a buffet line or salad bar in this establishment?

- Yes
- No

11. Does the establishment serve raw or undercooked animal products (ex: oysters, shell eggs) in any menu item?

- Yes
- No

11a. Is a consumer advisory regarding the risk of consuming raw or undercooked animal products provided (ex: on a sign)?

- Yes
- No

11a1. Where is the consumer advisory located? (Check all that apply)

Select a value... 

12. Which...  On a sign

...ct number, an estimate will be fine.

Read Aloud: The next few questions ask about kitchen manager food safety certification, where you receive a certificate upon completion of the training course.

14. Are any kitchen managers, including you, food safety certified?

14a. How many kitchen managers in this establishment, including yourself, are food safety certified by an ANSI accredited program? These include National Restaurant Association's ServSafe, National Registry of Food Safety Professionals, Prometric, 360 Training, and AboveTraining/ StateFoodSafety.com. If you aren't sure, use your best guess.

Number managers certified

14b. How often is a certified kitchen manager present during hours of operation? Is it all of the time, most of the time, some of the time, rarely, or none of the time?

15. Do you have any kitchen managers with food safety certification?

- All of the time
- Most of the time
- Some of the time
- Rarely
- None of the time
- Unsure

Food

16. How many kitchen managers are food safety certified? If you don't know the exact number, an estimate will be fine.

Nur

15. Does this establishment require that kitchen managers have a food safety certification?

No

Food Workers

16. How many food workers do you have? If you do not know the exact number, an estimate will be fine.

Provide number

Number of food workers

1

16a. What language do food workers in this establishment speak fluently? (Check all that apply)

Select a value...

- English
- Spanish
- French
- Chinese (any dialect)
- Japanese
- Other

Policy

Read and part of on-the-job or other type of training or they may be written documents that state the policy.

16b. What languages do food workers speak at work? (Check all that apply)

Select a value...

- English
- Spanish
- French
- Chinese (any dialect)
- Japanese
- Other

Policy

Read and part of on-the-job or other type of training or they may be written documents that state the policy.

7. Do

16c. Do any food workers receive food safety training? This training can be a course or a class, or it can be training that occurs on the job.

Policy

[Read Aloud](#): Now I'm going to ask you some questions about policies you have in this establishment. Food safety policies can be verbal and part of on-the-job or other type of training or they may be written documents that state the policy.

17. Does this establishment have a cleaning policy or schedule for:

17a. cutting boards?

17a1. Is this policy written?

17b. food slicers?

17b1. Is this policy written?

17c. food preparation tables?

17c1. Is this policy written?

17d. frequently touched customer surfaces like menus, tables, and condiments?

17d1. Is this policy written?

18. Does this establishment have a policy for disposable glove use?

18a. Does the glove policy require that food workers wear gloves?

18a1. when they have cuts or other injuries?

18a2. when handling ready-to-eat foods?

18a3. when handling raw meat or poultry?

18a4. at all times while working in the kitchen?

18b. Is the policy written?

19. Does this establishment have a policy for cleaning up after someone has vomited or had diarrhea in the establishment?

Food Temperatures

Read Aloud: The next few questions refer to actual food temperatures, not the ambient temperatures where food is stored. The questions refer to temperatures taken using a thermometer.

20. Does this establishment have a policy to take the temperature of any incoming food products?

Yes

21. Excluding incoming products, does this establishment have a policy to take food temperatures?

Yes

Health Policies

Read Aloud: Now I'd like to ask you a few questions about worker health policies. Again, I am asking about policies that apply to staff who primarily work with food—not staff who have no or very limited food handling responsibilities.

22. When food workers say they are ill, do you typically ask if they are experiencing certain symptoms?

Yes

23. Does this establishment have a policy or procedure that requires food workers to tell a manager when they are ill?

Yes

23a. Is this policy in writing?

Yes

23b. Does this policy require ill workers to tell managers what their symptoms are?

Yes

23c. Does this policy specify certain symptoms that ill workers are required to tell managers about?

Yes

23c1. What are those symptoms? (Check all that apply)

Select a value...

24. Does

Other (Enter a new value)

20. Do you observe any of these items for responding to vomit and/or diarrheal incidents? (Check all that apply)

Select a value... 

- Bleach
- Disinfectant effective against norovirus surrogate
- Personal protective equipment (ex: gloves or goggles/glasses or mask)
- Absorbent powder/solidifier
- Directions for vomit/diarrhea cleanup
- None of these items were present
- Other (Enter a new value)

21. Are there any differences in the physical facility, food handling practices you observed on your initial visit, and/or other circumstances that were different at the time of exposure?

- Yes
- No

21a. Describe the differences:

22. Record any additional comments 

23. Is a certified kitchen manager present at the time of data collection? (Check all that apply)

Select a value...

- Yes, ANSI certification
- Yes, other certification
- Yes, certification is not available
- No
- Unsure
- Certification is not current
- No, but establishment has certified kitchen manager on staff

24. Does the establishment have a written health policy or procedure?

- Yes
- No written policy

Check all components that apply

- Requires food workers to tell a manager when they are ill
- Requires ill workers to tell managers what their symptoms are
- Applies to kitchen managers
- Applies to food workers
- Restricts ill workers from working
- Excludes ill workers from working
- Includes a record to track employee illness (ex: on schedule or log)
- Employee health policy not in use
- Specifies certain symptoms that ill workers are required to tell managers about

Check all symptoms specified

- Vomiting
- Diarrhea
- Jaundice (yellow skin or eyes)
- Sore throat with fever
- A lesion containing pus (ex: boil or infected wound)

Other symptom, please describe:

🗑️

1. What is the name of the suspected or confirmed ingredient/food vehicle? (for example, lettuce or garden salad)

Food_01

2. Is this food a single specific ingredient (example, ground beef or lettuce) or multi-ingredient (example, hamburger sandwich, or a garden salad)?

Single specific ingredient food
 Multi-Ingredient Food

Ingredients

[+ Add Ingredient](#)

Ingredient	Description
Food_01	<ul style="list-style-type: none"> Fin fish (ex: trout, cod) Upon arrival: Raw, nonfrozen Intended to be consumed raw or undercooked by: Establishment

3. Select the reason that best describes how this single specific ingredient or multi-ingredient food was implicated in the outbreak. (Check all that apply)

Select a value... ▼

Outbreak agent was not identified in clinical or environmental samples, but the ingredient/food has historically been associated with the suspected agent based on clinical information (ex: ill persons' symptoms suggest a particular agent and the ingredient is commonly associated with that agent, ex: histamine reaction and fish suggest scombroid poisoning)

Ingredient/food was epidemiologically linked with cases (not statistically significant)

Ingredient/food was epidemiologically linked with cases (statistically significant)

Agent was confirmed in samples of an epidemiologically linked food

Agent was confirmed in clinical samples

Isolates from clinical and food samples closely related or identical by molecular typing

Other (Enter a new value)

4. Which of the following best describes the food preparation process used for this specific ingredient or multi-ingredient food before consumption ?

Select a value...

- Complex 1: Involved a kill step, followed by holding beyond same-day service.
- Complex 2: Involved a kill step, followed by holding and cooling.
- Complex 3: Involved a kill step, followed by holding, cooling, and re-heating.
- Complex 4: Involved a kill step, followed by holding, cooling, freezing, and re-heating.
- Cook Serve: Involved a kill step and may be followed by hot holding but is prepared for same-day service.
- Prep Serve: Did NOT involve a kill step. It may include heating commercially prepared foods for service.

5. During the likely time the ingredient / food was prepared, were any events noted that appeared to be different from the ordinary operating circumstances or procedures as described by managers and / or workers?

- Yes
- No

5a. How would those events best be characterized? (Check all that apply)

Select a value...

- Differences with equipment used to clean/sanitize food contact surfaces
- Differences with equipment used to cook the food
- Differences with equipment used to handle the food
- Differences with equipment used to store or hold the food
- Differences with how ingredient(s) were handled
- Differences with ingredient(s) used, such as different source for the ingredients, a different form (fresh instead of canned), or a substitution (red round tomatoes instead of cherry tomatoes)
- Differences with the method of preparation, cooking, holding, serving the food
- Different employee involved in preparing, cooking, holding, and/or serving food
- Ill employees
- Ill family members
- Other

The screenshot displays a 'New Ingredient' modal window overlaid on a background form. The modal has a title bar with a close button (X) and contains the following sections:

- 1. Name of ingredient: *** A text input field.
- 2. If any information is present (product manifests, records, tags) that shows this ingredient is an imported food item or from an unapproved source or recall, describe:** A text input field.
- 3. Did any of the following intend for the food to be consumed raw or undercooked? (Check all that apply): *** A dropdown menu with a list of checkboxes:
 - Manufacturer/Processor
 - Establishment
 - Customer
 - N/A
 - Unknown

The background form is partially visible, showing questions 2, 3, and 4. Question 2 asks 'Is this food a sandwich, or a...' with radio buttons for 'Single sp...' and 'Multi-Ing...'. Question 3 asks 'Select the role...' with a dropdown menu. Question 4 asks 'Which of the...'.

Part VI: Samples Taken

Establishment – EST01

Samples Taken

Add each food or environmental sample that was collected in the establishment as part of the EA.

If **environmental** samples were taken: Where were they taken?

Environmental samples:

Sample location	Number of samples
<input type="text" value="Select a value..."/>	<input type="text" value="1"/> 
+ Add	

If **food** samples were taken: What foods or ingredients were sampled?

Specific food samples:

Food item	Number of samples
<input type="text" value="Select..."/>	<input type="text" value="1"/> 
+ Add	

Multi-ingredient food samples:

Food item	Number of samples
<input type="text" value="Select..."/>	<input type="text" value="1"/> 

Environmental samples:

Sample location	Number of samples
Select a value... 	1 
Floor (floor surface, floor mat, etc.)	
Floor Drain	
Food prep table	
Inside any cooling unit (Walk-in, reach-in, etc.)	
Inside any heating unit	
Other	
Sink	
Slicer	
Utensil (tongs, knife, pan)	
Wall, ceiling	

If ingredients were sampled?

Part VI: Positive Samples

Establishment – EST01

Positive Samples

[+ Add Positive Sample](#)

Add each positive sample and provide answers to the questions

Positive Sample 🗑️

Positive sample number

Date sample was collected

1. Describe the agents found in the sample:

Agent	Serotype	Clinical sample match?
<input type="text" value="Select a value..."/>	<input type="text"/>	<input type="checkbox"/> 🗑️

[+ Add Agent](#)

2. Where was the sample taken?

3. Provide any other information about the specific example. (ex: presence/absence, detect/non-detect, and results with a value (pH, X ppm, x cfu/g))

The image shows a web-based data reporting interface. A dropdown menu is open, listing various agents for selection. The list includes:

- Hepatitis A
- Bacillus cereus
- Campylobacter
- Clostridium perfringens
- Cryptosporidium
- Cyclospora
- E. coli O157:H7
- E. coli STEC/VTEC
- Listeria
- Norovirus
- Salmonella
- Shigella
- Staphylococcus aureus
- Vibrio parahaemolyticus
- Yersinia
- Ciguatera toxin
- Scombrototoxin
- Other (Enter a new value)

Below the dropdown, there is a search bar with the text "Select a value...".

The background form includes the following elements:

- A "Positive" status indicator.
- A "Date sample was collected" field with a placeholder "mm/dd/yyyy".
- A "Serotype" field.
- A "Clinical sample match?" field with a checkbox.
- Buttons for "+ Add Positive Sample" and "+ Add Agent".
