TITLE OF INFORMATION COLLECTION: ALS Strategic Plan Workshop Registration (NINDS)

PURPOSE: The purpose of this information collection is to collect general registrant information for individuals who will participate in the ALS Strategic Plan Workshop held by NINDS. The information will be used to provide meeting details and links to attendees and for program planning purposes. NINDS is committed to promoting a diverse research workforce and to including diverse participants at this workshop. To allow staff to determine whether participants at the workshop represent diverse groups and backgrounds, the registration form gives registrants an opportunity to share demographic information, which will be aggregated for internal NINDS use and ongoing program improvement purposes only.

DESCRIPTION OF RESPONDENTS: Respondents are members of the public, media, members of congress, patient/advocacy groups, clinicians, investigators and associated scientific staff from academic and private institutions around the country, as well as federal staff (primarily NIH and FDA).

The selection of targeted respondents

1. Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe?

☐ Yes ☒ No

If the answer is yes, please provide a description of both below (or attach the sampling plan)? If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them?

There is not a comprehensive list of all potential registrants. We aim to reach as many as possible individuals that may be interested and want to engage on this topic, primarily via email, social media, and a meeting website. To do that, we have lists of individuals that have responded previously on this topic, lists of partner organizations that will promote the event through their communications and social media. As this is not a research study, we do not have a detailed sampling plan.

Administration of the Instrument
