ATTACHMENT B: Proposed CMHS Infrastructure, Prevention, and Mental Health Promotion (IPP) Indicators

Category	IPP Measure	Current Description	Proposed IPP indicators	Notes
Accountability	A1	The number of organizations making changes to accountability mechanisms in order to improve mental health-related practices/activities that are consistent with the goals of the grant.	The number of grant project activities in which fidelity is monitored as a result of the grant.	Measure modified to be more specific to CMHS grant programs. Measure now focuses on fidelity among organizations receiving CMHS funding.
	A2	The number of organizations that regularly obtain, analyze, and use mental-health related data as a result of the grant.	The number of organizations that regularly obtain, analyze, and use mental-health related data as a result of the grant.	No change
	А3	The number of communities that establish management information/information technology system links across multiple agencies in order to share service population and service delivery data as a result of the grant.	The number of communities that enhance health information sharing for provision of services between agencies and programs.	Measure modified to be more specific to CMHS grant programs. Measure is concise and easier to understand by program staff and grantees.
	A4	The number and percentage of work group/advisory group/council members who are consumers/family members.	The number and percentage of work group/advisory group/council members who are consumers/family members.	No change
	А5	The number of consumers/family members representing consumer/family organizations who are involved in ongoing mental health-related planning and advocacy activities as a result of the grant.	The number of consumers/family members representing consumer/family organizations who are involved in ongoing mental health-related planning and advocacy activities as a result of the grant.	No change
	А6	The number of consumers/family members who are involved in ongoing mental health-related evaluation oversight, data collection, and/or analysis activities as a result of the grant.	The number of consumers/family members who are involved in ongoing mental health-related evaluation oversight, data collection, and/or analysis activities as a result of the grant.	No change

receiving mental health or related services			The number and percentage of individuals receiving mental health or related services after	No change
			referral.
