

State Exchange Annual Eligibility Redeterminations

Alternative Procedures Template

Background

Regulations under 45 CFR §155.335 require that Exchanges re-determine the eligibility of a qualified individual on an annual basis. The Exchange must conduct annual redeterminations using one of the following methods:

- Option 1 -The procedures described in §155.335(a)(2)(i).
- Option 2- Alternative procedures specified by the Secretary for the applicable benefit year §155.335(a)(2)(ii); or
- Option 3- Alternative procedures to be approved by the Secretary under §155.335 (a)(2)(iii).

Under this section, Exchanges have the flexibility to submit alternative procedures to be approved by the Secretary. The alternative procedures must:

- Demonstrate that Exchange would facilitate continued enrollment in coverage for which the enrollee remains eligible.
- Provide clear information about the process to the qualified individual or enrollee (including regarding any action by the qualified individual or enrollee necessary to obtain the most accurate redetermination of eligibility).
- Provide adequate program integrity protections.

Review and Approval for SBE Redetermination and Re-Enrollment Plans

All states newly electing to be State-based Exchanges (SBE) must submit their redetermination and re-enrollment plans to CMS for review as part of the Blueprint Application approval process. Subsequently SBEs must submit their re-determination and re-enrollment plans for the upcoming Open Enrollment through the annual SMART submission, and identify any changes from their previous reviewed plan. States have the option to submit the plans on the following template. CMS reviews each SBE re-determination plan in accordance with 155.335 and conducts any necessary follow up during the SBE's Open Enrollment Readiness Review. Any identified non-compliance issues are identified and addressed through the SMART.
