Agreement to Exchange Electronic Income Withholding Orders/Notices

By completing and providing the information on this form, the employer, company, or government agency agrees that:

The employer, company, or government agency shall have appropriate procedures in place to promptly report confirmed or suspected information security or privacy incidents, including, but not limited to, unauthorized use or disclosure of Personally Identifiable Information (PII) involving confidential child support information submitted through OCSE to your organization. As soon as reasonably practicable after discovery, but in no case later than one hour after discovery of the incident, the employer, company, or government agency shall report confirmed or suspected incidents to OCSE as specified in this paragraph. The requirement for the employer, company, or government agency to report confirmed or suspected incidents involving PII to OCSE is based on federal guidance/requirements from the Office of Management and Budget (OMB), Health and Human Services (HHS), the Federal Information Security Modernization Act of 2014 (FISMA), and the United States Computer Emergency Readiness Team (US-CERT).

Incidents must be reported via email to OCSE using the security mailbox address:

ocsesecurity@acf.hhs.gov

The organization will electronically receive and respond to IWOs issued by states, tribes, or territories in the same manner as mailed notices within the required timeframes. Response timeframes and other instructions are available at

<https://ocsp.acf.hhs.gov/irgpdf.pdf?geoType=OGP&groupCode=EMP&addrType=EIW&addrClassType=EMP>

The organization will not impersonate any individual, entity, or association; use false headers; or otherwise conceal or provide misleading information about their identity while receiving IWOs electronically.

The organization's representative completing this form is authorized to act on behalf of the employer and agrees to provide true, correct, current, and complete information about the entity identified in the profile form.

The organization will consider the electronic version of the IWO admissible as evidence in the same way as paper documents.

The organization will provide written notice to the federal Office of Child Support Enforcement at least 30 days before it intends to stop accepting e-IWOs.

A third-party provider certifies that it has authorization to participate in e-IWO on behalf of their clients and will provide company names, FEINs, and related information to OCSE for the purpose of processing e-IWOs.

File Naming Convention

Files can be named using OCSE’s standard file naming convention or the organization’s file naming convention. The naming convention for PDF files is standard for this process:

1. In the Standard/Organization-Supplied File Naming Convention column, select whether you want to use your organization’s file naming convention or OCSE’s standard file naming convention.
2. In the File Naming Convention column, take the following steps:
 - If you are using your organization’s file naming convention, enter the file naming convention. For example, for the file with notices (Incoming State Notice Files), you can enter enmsn.mybiz.notices.txt. This is the name of the file you will receive that includes your notices.
 - If you are using OCSE’s standard file naming convention, an example file name is in the table below. For more information about file naming conventions and formats, refer to the [e-NMSN Software Interface Specifications](#).

File Type	Standard/Organization-Supplied File Name Convention	File Name Convention

Server Information (Required for Both Options)

This information is required for the No Programming and Programming (System to System) file information.

To send and receive e-IWO files, we need the following server information:

- Different directory/folder names
- Server ID
- Server passwords

An IP address is required; a host name is optional. Information is required for the production environment and optional for the test environment. The Pick-Up and Drop-Off directory names must be different.

The only methods offered for transferring e-IWO data is for our servers to initiate the sending and retrieving of files using SFTP or FTPS.

We can only use FTPS with a partner's server that has installed our Certificate of Authority (CA), which makes that server dedicated to exchanging files via FTPS only with our server.
