THE PAPERWORK REDUCTION ACT OF 1995 (Pub. L. 104-13) The purpose of this information collection is to better understand the capacity building needs of child welfare jurisdictions so that the Capacity Building Center for States, a Children's Bureau initiative can tailor and improve its services. Public reporting burden for this collection of information is estimated to average 20 minutes per respondent, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. This is a voluntary collection of information. A Federal agency may not conduct or sponsor, and no individual or entity is required to respond to, nor shall an individual or entity be subject to a penalty or failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act of 1995, unless that collection of information displays a currently valid OMB control number. If you have any comments on this collection of information, please contact Beth Claxon, Children's Bureau, by e-mail at Beth.Claxon@acf.hhs.gov.

Feedback Survey

The Capacity Building Center for States (the Center) is committed to providing quality, relevant services to states and jurisdictions. We are conducting this feedback survey as part of a national needs assessment and intend to use the information to improve and tailor Center services. We are gathering information from state child welfare agency leaders around the country to learn about current efforts within their agencies and agency needs to best support positive outcomes for children, youth, and families. This survey focuses on agencies' work to address racial and ethnic inequities, partner with youth and families with lived experience in agency improvement efforts and support the workforce.

Your participation in this survey is entirely voluntary, and your responses will be held private and reported in aggregate without any identifying information. **The survey should take about 20 minutes to complete.** Thank you in advance for taking the time to complete this survey. If you have any questions, please contact Katie Bourgault, Needs Assessment Lead at katie.bourgault@icf.com.

Child Welfare Agencies’ Infrastructure for Partnering with Youth and Families with Lived Experience

This set of questions relates to your agency’s efforts to partner with youth and families who have lived experience¹ in agency planning and improvement efforts.

¹ Lived experience can be defined as “personal knowledge about the world gained through direct, first-hand involvement in everyday events rather than through representations constructed by other people.”¹ It can also be defined as “the experiences of people on whom a social issue or combination of issues has had a direct impact.”² In child welfare the term refers to children, youth, parents and caregivers with current and past experience with the child welfare system.
