Why do we ask for demographic information? These questions are about some of the ways you describe yourself and your work. This information is important to us because we want the Center's TTA to be useful, meaningful, and respectful for everyone. If we find out a TTA experience is not as helpful for any particular demographic group, we will use that information to improve TTA in the future, so it is more responsive to the group's needs. Please remember that all responses are anonymous, and you may skip any item you do not wish to answer.
