

As part of the COVID-19 Public Education Campaign market research efforts, the Current Events Tracker (CET) is a flexible survey vehicle designed for easy addition or removal of questions as applicable to the current environment. This wave refields questions on repeated infections and COVID risk perceptions. New or modified questions include those on test to treat, monoclonal antibodies, Memorial Day/summer plans, antiviral treatment for children under 12, and awareness of BA 2.12.1.
