We are conducting a nonpartisan, scientific study to understand nation-wide participation in outdoor recreational activities. Results from this study will be used to inform how state and federal dollars should be spent in communities like yours.

Your household has been randomly selected to participate in this study. We hope to hear from all kinds of people -- those who participate in these activities daily, those who never participate, and everyone in-between!

This study is being conducted by NORC at the University of Chicago, an independent, nonprofit research institution that has been delivering reliable data and analysis for nearly 80 years. We are not selling anything, and we are not affiliated with any political party. The survey is easy to do and all of your responses are anonymous.
