

ISSUE: The Biden Administration issued three Executive Orders with requirements to advance equality and inclusion to assess service to beneficiaries in particular groups. After receiving consultation from OMB, NCA revised certain forms to comply with OMB guidance.

The following form had minimal non-substantive changes to the Sex block to align with current OMB guidance. Further, minimal non-substantive changes were made to the Race or Ethnicity block to change “Asian” to “Asian or Asian American”. This change request is non-substantive and has no impact on the burden. The number of respondents, annual burden hours, estimated completion time, and annualized costs to the respondents and Federal government did not change.
