

1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on February 4, 2022, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Highly Migratory Species Tournament Registration and Reporting. **OMB Control Number:** 0648-0323.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 300.

Average Hours per Response:

Tournament registration, 2 minutes; tournament summary report, 20 minutes.

Total Annual Burden Hours: 110.

Needs and Uses: This request is for extension of a currently approved information collection. Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), NOAA's National Marine Fisheries Service (NMFS) is responsible for management of the nation's marine fisheries. Existing regulations require operators of tournaments involving Atlantic highly migratory species (HMS; Atlantic swordfish, sharks, billfish, and tunas) to register four weeks in advance of the tournament. Operators must provide contact information and the tournament's date(s), location(s), and target species. If selected by NMFS, operators are required to submit an HMS tournament summary report within seven days after tournament fishing has ended. Most of the catch data in the summary report is routinely collected in the course of regular tournament operations. NMFS uses the data to estimate the total annual catch of HMS and the impact of tournament operations in relation to other types of fishing activities. In addition, HMS tournament registration provides a method for tournament operators to request educational and regulatory outreach materials from NMFS. No changes to the reporting requirements are being made at this time..

Affected Public: Business or other for-profit organizations; Not-for-profit institutions.

Frequency: Annually; on occasion.

Respondent's Obligation: Mandatory.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), and the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971 *et seq.*)

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2012-0056]

Agency Information Collection Activities; Proposed Collection; Comment Request; Safety Standard for Omnidirectional Citizens Band Base Station Antennas

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: Pursuant to the Paperwork Reduction Act of 1995, the Consumer Product Safety Commission (Commission or CPSC) requests comments on a proposed extension of approval for a collection of information associated with the Commission's Safety Standard for Omnidirectional Citizens Band Base Station Antennas, approved previously under OMB Control No. 3041-0006. CPSC will consider all comments received in response to this notice before requesting an extension of this collection of information from the Office of Management and Budget (OMB).

DATES: Submit written or electronic comments on the collection of information by July 11, 2022.

ADDRESSES: You may submit comments, identified by Docket No. CPSC-2012-0056, by any of the following methods:

Electronic Submissions: Submit electronic comments to the Federal eRulemaking Portal at: <https://www.regulations.gov>. Follow the instructions for submitting comments. CPSC typically does not accept comments submitted by electronic mail (email), except as described below. CPSC encourages you to submit electronic comments by using the Federal eRulemaking Portal, as described above.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Safety Standard for Omnidirectional Citizens Band Base Station Antennas.

OMB Number: 3041-0006.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers, importers, and private labelers of

omnidirectional citizens band base station antennas.

Estimated Number of Respondents: Approximately 10 firms supply omnidirectional citizen band base station antennas.

Estimated Time per Response: Based on the information compiled by manufacturers, importers, and private labelers of antennas to test and maintain records for certificates of compliance, we estimate an average of 220 hours per firm for annual testing and recordkeeping.

Total Estimated Annual Burden: 2,200 hours (10 firms × 220 hours).

General Description of Collection: The Safety Standard for Omnidirectional Citizens Band Base Station Antennas (16 CFR part 1204) establishes performance requirements for omnidirectional citizens band base station antennas to reduce unreasonable risks of death and injury that may result if an antenna contacts overhead power lines while being erected or removed from its site. The regulations implementing the standard (16 CFR part 1204, subpart B) require manufacturers, importers, and private labelers of antennas subject to the standard to test the antennas for compliance with the standard and to maintain records of that testing. Based on an average hourly wage of \$71.82,¹ the total annual cost to the industry to perform the required testing and maintain the records is approximately \$158,000 (\$71.82 times 2,200 hours).

Request for Comments

CPSC solicits written comments from all interested persons about the proposed collection of information. The CPSC specifically solicits information relevant to the following topics:

- Whether the collection of information described above is necessary for the proper performance of CPSC's functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collection of information is accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological

collection techniques, or other forms of information technology.

Title: Standard for the Flammability of Children's Sleepwear: Sizes 0 Through 6X; and the Standard for the Flammability of Children's Sleepwear: Sizes 7 Through 14.

OMB Number: 3041–0027.

Type of Review: Renewal of collection.

Frequency of Response: On occasion. *Affected Public:* Manufacturers and importers of children's sleepwear.

Estimated Number of Respondents: Based on a review of past inspections and published industry information, CPSC staff estimates that there could be as many as 866 domestic children's apparel manufacturers in the United States subject to the rule. However, not all these manufacturers will produce children's sleepwear. Therefore, this figure is likely an overestimate of the actual number of firms performing tests and creating records in any given year. Furthermore, using the Harmonized Tariff System (HTS) codes for children's sleepwear, CPSC staff found approximately 3,641 importers that supply children's sleepwear to the U.S. market. Many of the 866 domestic manufacturers, along with many large
