PART I: PROJECT STRATEGIES AND NARRATIVE

In your application, you identified the strategies you expected to employ to strengthen communities through the arts. Please check below all the strategies that were actually used in your project. Please discuss these strategies in the next section. Check all that apply.

<input type="checkbox"/>	Illuminate: Bring new attention to or elevate key community assets and issues, voices of residents, local history, or cultural infrastructure. Project examples include an arts festival that brings attention to a community's unique history or cultural heritage; creative asset mapping that builds understanding of a community's cultural infrastructure; and creative business development that provides greater visibility to a local craft tradition.
<input type="checkbox"/>	Energize: Inject new or additional resources, activities, or people into a place, community issue, or local economy. Project examples include performances that attract visitors to a neighborhood or community; investments in creative business and/or professional artist development that bolster a local economy; cultural district planning, and a project that engages community members in developing, selecting, or executing a temporary work of art.
<input type="checkbox"/>	Imagine: Envision new possibilities for a community or place - a new future, a new way of overcoming a challenge, or approaching problem-solving. Project examples include an artist leading or partnering in the creative processes of visioning solutions to community issues; cultural planning; the design of a new public space; and community co-creation of art that imagines a fresh solution to a community problem.
<input type="checkbox"/>	Connect: Bring together communities, people, places, and economic opportunity via physical spaces or new relationships. Project examples include a temporary public art project that brings diverse members of a community together in its development; arts festivals or performances intended to build familiarity and relationships among a community's residents; and/or the design of public spaces that bridge physically and socially isolated neighborhoods.
