

Rebuild Trust in Government (Dec. 13, 2021). This survey narrows the focus of customer satisfaction to examination quality and uses a longitudinal, rotating panel design to assess changes in customer perceptions and to identify key areas for examiner training and opportunities for improvement. The USPTO surveys patent agents, attorneys, and other individuals from large domestic corporations (including those with 500+ employees), small and medium-size businesses, independent inventors, and universities, and other non-profit research organizations. This survey does not include foreign entities. The USPTO random sample used in this survey is drawn from the Patent Application and Location Management (PALM) database. The sample population is drawn from the top filing firms and entities that have filed five or more patent applications in a 12-month period. This ongoing survey is generally conducted twice a year. The USPTO uses a rotating panel design where participants will take the survey twice in back-to-back survey periods. Half the participants in each survey period are new, completing the survey for the first time, and half are returning to complete the survey for a second time. This design allows a precise measurement of changes in customer experience over time. The Patents External Quality Survey is primarily a web-based survey, although respondents can also complete the survey via paper and mail if they prefer. The content of both versions is identical. Potential respondents are sent either an email or mailed pre-survey letter, depending on noted preferences for contact. At the beginning of each survey period, respondents are provided instructions for accessing and completing the survey electronically. After a specified response period, a survey packet containing a questionnaire, a separate cover letter prepared by the Deputy Commissioner for Patents, and a postage-paid, preaddressed return envelope are mailed to all sample members that have not yet submitted a response. Sampled members receiving a paper survey can still complete the survey electronically if they prefer. Reminder/thank you postcards and telephone calls are used to encourage responses from sample members.
