2020 VCUS Updates/Changes

All 3 questionnaires have the same update to Section E-1.

- The Pest Management Practices section E is now broken into two Section E-2's. They are Section E and Section E-1. Section E-1, Pest Management Practices, is new this year. Even though both sections ask questions pertaining to Pest Management, NASS decided to keep the Office of Pest Management Policy (OPMP) questions separate from the NASS Section E, Pest Management questions. However, these questions were asked on the 2019 Fruit Chem Use Survey.

Arizona Questionnaire:

- Section C – Fertilizer Applications. No Fertilizer questions will be asked this year as they are asked every other survey cycle.
- Section E-1 – Pest Management Practices section is new.

California Questionnaire:

- Section C – Fertilizer Applications. No Fertilizer questions will be asked this year as they are asked every other survey cycle.
- Section D – Pesticide Applications. No Pesticide questions will be asked this year as they are asked every other survey cycle.
- Section E-1 – Pest Management Practices is new.

Enterprise Questionnaire:

- Section C – Fertilizer Applications. No Fertilizer questions will be asked this year as they are asked every other survey cycle.
- Section E-1 Pest Management Practices is new.
