Deductions for elections you have made (other than No Coverage) for Medical, Dental and Basic Life Insurance may be taken as pre-tax or after-tax deductions.

The provisions of Section 125 of the Internal Revenue Code (IRC) permit you to have your premiums, and those for tax dependents, deducted from your paycheck on a pre-tax basis.

What to consider when selecting your deduction type:

Pre-Tax (Participating in Section 125 provisions)

When premiums are paid with pre-tax dollars under Section 125, IRC, you may not cancel coverage except: During an Open Enrollment period or within 31 Days of a Family Status Change. A cancellation during Open Enrollment is effective on 1 January of the following plan year. Family Status Change elections are effective either the date of the event or date of the election. See your Summary Plan Description for details located on the home page.

Unless you qualify for a state or federal program (see the after-tax section below), you will likely want to participate in the Section 125 provisions that permit pre-tax deductions. By paying for your premiums with pre-tax dollars, you effectively pay less for your coverage. Here is an example:

Pre-Tax Deductions				
Monthly Pay	\$1000.00			
Insurance	- \$100.00			
New W-2 Pay	\$900.00			
Taxes (25%)	-\$225.00			
Take Home Pa	v \$675.00			

After-Tax Deductions

Monthly Pay \$1000.00 Taxes (25%) - \$250.00 Insurance - \$100.00 Take Home Pay \$650.00

After-Tax

If you have been informed that you are eligible to receive reimbursement of your insurance premiums under a state or Federal program, you will need to have your premiums deducted on an after-tax basis before you can receive your reimbursement.

- @ I will participate in the Section 125 provisions and have my deductions taken pre-tax
- O I will have my deductions taken after-tax

Benefit Enrollment - HCFSA

A Health Care FSA allows you to reimburse yourself with pre-tax dollars for out of pocket health care expense for you and your eligible dependents and reduces your taxable income for the year which saves you money on your taxes! You may elect to contribute a minimum amount of 200.00 up to a maximum amount of 2850.00 to your HCFSA. This money must be used for qualifying out-of-pocket health care, dental and/or vision expenses for you or your eligible dependents. A full explanation of eligible and ineligible expenses for a health care spending account is in IRS Publication 502.

It is important to carefully Estimate Your Expenses so you don't lose your funds. Qualifying medical, dental, or vision expenses incurred in 2021 must be claimed by February 15th of the following year. Remember that up to \$1,000 of your unused FSA funds can be rolled over to the following plan year. Any unused amount above the \$1,000 will be forfeited.

During any unpaid leave of absence: your FSA participation and contributions will stop and you may not request reimbursement for eligible expenses incurred during the absence.

If you return to work in the same calendar year: your participation will be reinstated back to the date you went on unpaid leave and at that time you may request reimbursement for eligible expenses incurred during your period of unpaid leave. Your contributions will be recalculated to ensure you meet your annual election amount by the end of the year.

This program provides both Short Term and Long Term Disability income benefits. Long Term Disability income benefits end when you reach 61.5 years old. If you enroll in Disability Insurance and are older than 61.5 years of age, you will only be enrolled in and charged for Short Term Disability.

After missing work for 5 calendar days, contact Managed Disability to initiate a claim. After thirty days (or exhaustion of your sick leave, whichever is later), Short Term Disability will pay a weekly benefit of 66 2/3% of your annual pay. After 26 weeks, Long Term Disability will pay a monthly benefit of 66 2/3% of your annual pay. See the Summary Plan Description for more details.

Benefit Enrollment - Personal Accident Insurance

You may elect your Personal Accident Insurance (PAI) coverage below. Personal Accident Insurance covers you, your spouse and children in the case of loss of life or limb as a result of an accident. Other accidental benefits are provided too as explained in the PAI brochure located on the home page.

To be eligible for family coverage, you must first add your dependent(s). If you and your spouse are both eligible to enroll for coverage, one but not both, may purchase family coverage. The other spouse may elect single coverage only.
