Subject: CDC NPIN Organizations Database - Request for annual update (OMB 0920-0255)

Dear Colleague:

Your organization is listed in CDC's National Prevention Information Network (NPIN) Database. NPIN provides referral information for HIV, STD, TB, and hepatitis prevention, testing, treatment, and support services. We are kindly requesting that you verify the information NPIN has about your organization. Please navigate to the link to your organization's record as it appears in the CDC-NPIN Organizations Database <http://npin.cdc.gov/xxxxxxxxxxxxxxxx> to review and update your organization's information. We estimate that it will take about 6 minutes for you to complete the verification process.

We appreciate your assistance in keeping the information up-to-date. Please do not reply to this email. This is an unattended mailbox. If you have any questions, please contact us at NPIN-OrgDBA@cdc.gov. We welcome you as both a contributor and user of CDC-NPIN.

Sincerely,

NPIN Organizations Team
