6. Total						

¹ The 24-month expenditure period for the COVID-19 Relief supplemental funding is **March 15**, **2021 - March 14**, **2023**, which is different from the expenditure period for the "standard" SABG and MHBG. Per the instructions, the standard SABG expenditures are for the planned expenditure period of October 1, 2021 - September 30, 2023.

² The expenditure period for The American Rescue Plan Act of 2021 (ARP) supplemental funding is **September 1, 2021 - September 1, 2025**, which is different from the expenditure period for the "standard" SABG. Per the instructions, the standard SABG expenditures are for the planned expenditure period of Octboer 1, 2021 - September 30, 2023.

³ Prevention other than primary prevention

⁴ For the purpose of determining which states and jurisdictions are considered "designated states" as described in section 1924(b)(2) of Title XIX, Part B, Subpart II of the Public Health Service Act (42 U.S.C. § 300x-24(b)(2)) and section 45 CFR § 96.128(b) of the Substance Abuse Prevention and Treatment Block Grant (SABG); Interim Final Rule (45 CFR 96.120-137), SAMHSA relies on the HIV Surveillance Report produced by the Centers for Disease Control and Prevention (CDC,), National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention. The most recent HIV Surveillance Report published on or before October 1 of the federal fiscal year for which a state is applying for a grant is used to determine the states and jurisdictions that will be required to set-aside 5 percent of their respective SABG allotments to establish one or more projects to provide early intervention services regarding the human immunodeficiency virus (EIS/HIV) at the sites at which individuals are receiving SUD treatment services. In FY 2012, SAMHSA developed and disseminated a policy change applicable to the EIS/HIV which provided any state that was a "designated state" in any of the three years prior to the year for which a state is applying for SABG funds with the flexibility to obligate and expend SABG funds for EIS/HIV even though the state's AIDS case rate does not meet the AIDS case rate threshold for the fiscal year involved for which a state is applying for SABG funds. Therefore, any state with an AIDS case rate below 10 or more such cases per 100,000 that meets the criteria described in the 2012 policy guidance would will be allowed to obligate and expend SABG funds for EIS/HIV if they chose to do so.
