

Non-Substantive Change Request to 0938-1155: Standards Related to Reinsurance, Risk Corridors, and Risk Adjustment

September 7, 2022

This is a non-substantive change request to the **Standards Related to Reinsurance, Risk Corridors, and Risk Adjustment - Appendix A** that was approved as OMB control number 0938-1155. The instrument was submitted with the 60 and 30-day information collection Federal Register documents; however, the document was inadvertently omitted from the final OMB submission.

This non-substantive change does not have any burden implications nor would it revise any of our currently approved collection of information requirements.
