

Justification for Non-Substantive Changes for Electronic Consent Based Social Security Number Verification
20 CFR 401.100
OMB No. 0960-0817

Background

We are transitioning registration for Electronic Consent Based Social Security Number Verification (eCBSV) to the EAZE Management Portal. The transition to the EAZE Management Portal will not impact the eCBSV customers or our business process. After an entity has successfully registered for EAZE, entity's representatives will have access to the EAZE Management Portal, which is the place that they can update their registration information (i.e. issuer URL or technical email address) in a self-service manner. In addition, they could view a list of OIDC/OAuth2 Client IDs and enrolled business services.

After registering, entities will have access to the Entity Management page shown below:

The screenshot shows the 'EAZE Management Portal' interface. The main heading is 'Entity Management'. Below this, there are three tabs: 'Registered Entities' (selected), 'OIDC/OAuth2 Clients', and 'Business Services'. The 'Registered Entities' tab displays a form for 'Sample Bank LLC'. The form fields and their values are:

Entity Name	Sample Bank LLC
DBA Names	
Headquarter Address	123 N. Main St Suite G El Paso, TX 79905
Domain Name	sample-bank-llc.com
OIDC Issuer URL	https://oidc.sample-bank-llc.com/production/
Alert Email Address	support@sample-bank-llc.com
EIN	123454321
UEI	
DUNS	
NMLS	

At the bottom of the page, there are links for 'Privacy Policy', 'Privacy Act Statement', and 'Accessibility Help'.

Justification for Non-Substantive Changes to the Collection

We are making the following revisions to this collection:

- **Change #1:** The EAZE Management Portal will give users the ability to change the OIDC Issuer URL in a self-service manner.

EAZE Management Portal

Entity Management

Registered Entities **OIDC/ OAuth2 Clients** Business Services

Entity Name Sample Bank LLC
