### Terms of Service

These terms of service apply to your creation of an account to use certain online services offered by the Social Security Administration. After creating an account, you may be asked to agree to added terms to use specific services.

You must be able to verify some information about yourself and:

- Have a valid email address;
- Have a Social Security number;
- Have a U.S. mailing address; and
- Be at least 18 years of age.

You may only create an account using your own personal information. Do not create an account using another person's information or identity, even if you have that person's written permission or are that person's representative payee or appointed representative.

For example, you cannot create an account for another person:

- With whom you have a business relationship;
- For whom you are a representative payee; or
- For whom you are an appointed representative.

You may obtain assistance with creating your account from someone you trust. However, by sharing your personal information with the person assisting you, you accept the risk that the person assisting you may misuse your personal information. A third party, including a representative payee or an appointed representative, may not create an account on your behalf, but you may ask your representative payee or appointed representative to assist you to create your account if you trust the individual.

In order to protect your privacy and prevent fraud, do not share your username and password.

### What will we do with your information?

We use the information you give us to verify your identity against our records. We also use an external [Identity Services Provider](#) to verify your information against their records. They keep your information only for the period of time permitted by federal laws, regulations, or guidelines.

When you make a verification request to establish your account, our [Identity Services Provider](#) may use information from your credit report and/or wireless carrier to help verify your identity. As a result of using information from your credit report, you may see a "soft" inquiry entry on your credit report with the [Identity Services Provider](#), indicating that the Social Security Administration made an inquiry at your request and the date of that request. Soft inquiries do not affect your credit score, and you do not incur any charges related to them. Soft inquiries are displayed in the version of the credit report provided to a consumer and are not reported to lenders. Soft inquiries will not appear on your credit report from other providers. Soft inquiries are generally removed from your credit report after 12 months. Once you have registered for an online account, you will not generate additional soft inquiries by logging in to access our services.

You understand that by checking "I agree to the Terms of Service", you are providing written instructions to the Social Security Administration under the Fair Credit Reporting Act authorizing the Social Security Administration to obtain information from your personal credit profile or other information from Experian. You authorize the Social Security Administration to obtain such information solely to provide you access to personally identifiable information and prevent fraudulent transactions.

The Social Security Administration may need to verify mobile phone data through an external service provided by Boku, Inc. You authorize your wireless carrier to use or disclose information about your account and your wireless device, if available, to the Social Security Administration or its service provider for the duration of your business relationship, solely to help them identify you or your wireless device and to prevent fraud. See our [Privacy Policy](#) for how we treat your data.

### What happens if you provide false information or misuse this service?

You may be subject to criminal or civil penalties, or both, if you provide false or misleading statements to sign in or create an account or engage in unauthorized use of this service.

### Who is responsible if the device you are using is not adequately safeguarded?

You accept that the responsibility to properly protect any information provided to you by the Social Security Administration is yours and that you are the responsible party should any information on or from your computer or other device be improperly disclosed. You agree that the Social Security Administration is not responsible for the improper disclosure of any information that the Social Security Administration has provided to you, whether due to your own negligence or the wrongful acts of others.

By checking I agree to the Terms of Service, I acknowledge the following:

- I understand that I am accessing a U.S. Government system.
- I understand that my usage of this system may be monitored, recorded, and subject to audit.
- I understand that unauthorized or improper use of this system is prohibited and may result in administrative, civil, or criminal penalties and/or other actions.

I agree to the Terms of Service.
