# Sexual Risk Avoidance Education National Evaluation (SRAENE)

## Nationwide Study

### Provider Survey

August 2022

#### THE PAPERWORK REDUCTION ACT OF 1995

This collection of information is voluntary and will be used to provide the Administration for Children and Families with information to help refine and guide program development in the area of adolescent pregnancy prevention. Public reporting burden for the collection of information is estimated to average 45 minutes per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB number and expiration date for this collection are OMB #: XXXX-XXXX, Exp: XX/XX/XXXX. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Tiffany Waits at [TWaits@mathematica-mpr.com](mailto:TWaits@mathematica-mpr.com).

## A. Sexual Risk Avoidance Education (SRAE) curricular content

This first section asks questions about the SRAE organization you work for and the SRAE curricula your organization has delivered during the 2022-2023 school year.

### RQ1: Curricula

**ALL**

**A1. Which curricula does your organization deliver/has your organization delivered to youth this school year?**
