

As part of the COVID-19 Public Education Campaign market research efforts, the Current Events Tracker (CET) is a flexible survey vehicle designed for easy addition or removal of questions as applicable to the current environment. In this round, last week's additional questions are removed; non-substantive changes this week include updating the response categories in the question regarding reasons for waiting to vaccinate and swapping out the last set of Preparing the Nation messages for testing with a new batch. This request does not impact the total burden hours proposed for the CET in the initial submission.
