

ASPA COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine acceptance and reinforce basic prevention measures

CET – Annotated Questionnaire (Wave 60)

Note: The questions below are the proposed questions for the 60th wave of the Weekly Current Events Tracker (CET). Questions highlighted in yellow will be asked every week; questions highlighted in blue will be rotated into the survey on a monthly basis; and questions highlighted in green are meant to be asked in this wave only or are being asked again to update data on a variable of interest. We will be fielding questions about COVID and testing experiences, comfort with travel experiences, perceptions of the removal of mask mandates on public transit, and the test-to-treat initiative.

For the next section we would like to talk about current events.

// Soft Prompt: "We would like your response to this question."//

ptn_w60: We are interested in your opinion of a few messages about COVID-19 vaccines or boosters.

For each of the below messages, please indicate how much you agree or disagree with the following statement:

"I would share the information in the message with a friend or family member who wants to know more about COVID-19 vaccines or boosters."

//PROGRAMMING NOTE: randomize variables in grid//

| Variable Name | Variable Text | Variable Label |
|---------------|---|--------------------------------|
| ptn_w60_1 | Vaccinated adults who haven't gotten a booster are twice as likely to be hospitalized with COVID as those who have gotten a booster. | ptn_w60_1: Twice as likely |
| ptn_w60_2 | Over 10 million children ages 5-11 have gotten a COVID vaccine. | ptn_w60_2: 10 million children |
| ptn_w60_3 | Children and teens who have COVID can have new or lingering symptoms that last for weeks or months after infection. This condition is known as long COVID. | ptn_w60_3: Long COVID |
| ptn_w60_4 | It's true that some vaccinated people still get COVID. But if you do get COVID, being vaccinated is your best defense against severe illness and symptoms that last for months. | ptn_w60_4: Best defense |
| ptn_w60_5 | For those over 50, getting a 2nd COVID booster 4 months after your 1st booster dose helps prevent severe COVID disease. | ptn_w60_5: Second booster |
