

ASPA COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine acceptance and reinforce basic prevention measures

CET – Annotated Questionnaire (Wave 62)

Note: The questions below are the proposed questions for the 62nd wave of the Weekly Current Events Tracker (CET). Questions highlighted in yellow will be asked every week; questions highlighted in blue will be rotated into the survey on a monthly basis; and questions highlighted in green are meant to be asked in this wave only or are being asked again to update data on a variable of interest. We will be fielding questions about COVID reinfections, the Test to Treat initiative, monoclonal antibody treatments, summer plans, COVID risk perceptions, COVID treatment for children under 12, and awareness of the BA.2.12.2 variant.

For the next section we would like to talk about current events.

//BASE: All respondents//

Item #: Q1

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

beh1_cet_r: Have you received a COVID-19 vaccine?

Variable Label: beh1_cet_r: Vaccination behavior

Value	Value Label
0	No, I have not received a COVID-19 vaccine
1	Yes, but I have only received one shot out of the two required shots
2	Yes, I have received all of the required shots
-99	Refused

// Page Break //

//BASE: beh1_cet_r=1 or 2//

Item #: Q2

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

vaccine_id: Which COVID-19 vaccine did you receive?

Variable Label: vaccine_id: Vaccine ID

Value	Value Label
2	Johnson & Johnson/Janssen
3	Moderna
4	Pfizer-BioNTech
5	Other
99	I do not remember

-99	Refused
-100	Valid skip

// Page Break //

//BASE: beh1_cet_r=2//

Item #: Q3

Question Type: Dropdown menu

// Soft Prompt: "We would like your response to this question." //

fully_vacc_month: In which month were you considered fully vaccinated (i.e., two weeks after your final COVID-19 vaccine dose)? Final vaccine dose refers to either the second dose of the Pfizer or Moderna vaccine, or the single dose of the Johnson & Johnson vaccine. Please do not consider booster shots for this question. If you do not remember the specific month, give your best guess.

Variable Label: fully_vacc_month: Month of vaccination

Value	Value Label
1	December, 2020
2	January, 2021
3	February, 2021
4	March, 2021
5	April, 2021
6	May, 2021
7	June, 2021
8	July, 2021
9	August, 2021
10	September, 2021
11	October, 2021
12	November, 2021
13	December, 2021
14	January, 2022
15	February, 2022
16	March, 2022
17	April, 2022
18	May, 2022
-99	Refused

// Page Break //

//BASE: beh1_cet_r=2//

Item #: Q4

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

booster_uptake4: U.S. health officials and medical experts now recommend COVID-19 vaccine booster shots. Have you received a COVID-19 vaccine booster shot?

Variable Label: booster_uptake4: Booster uptake – April 2022 guidance

Value	Value Label
0	No
1	Yes, I have received 1 booster shot
2	Yes, I have received 2 booster shots
-99	Refused
-100	Valid skip

// Page Break //

//BASE: (booster_uptake4=0 & vaccine_id=2 & fully_vacc_month=1-16) OR
(booster_uptake4=0 & vaccine_id=3-4 & fully_vacc_month=1-13) //

Item #: Q5

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

booster_elig_uptake3: You are currently eligible to receive a COVID-19 vaccine booster shot. What is the likelihood that you will get one?

Variable Label: booster_elig_uptake4: Booster uptake likelihood – eligible adults

Value	Value Label
1	Very unlikely
2	Somewhat unlikely
3	Neither likely nor unlikely
4	Somewhat likely
5	Very likely
-99	Refused
-100	Valid skip

// Page Break //

//BASE: (booster_uptake4=0 & vaccine_id=2 & fully_vacc_month=17-18) OR
(booster_uptake4=0 & vaccine_id=3-4 & fully_vacc_month=14-18)

Item #: Q6

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

booster_likely_v2: What is the likelihood that you will get a COVID-19 vaccine booster shot when eligible?

Variable Label: booster_likely_v2: Booster uptake likelihood – not yet eligible

Value	Value Label
1	Very unlikely
2	Somewhat unlikely
3	Neither likely nor unlikely
4	Somewhat likely
5	Very likely
-99	Refused
-100	Valid skip

//BASE: beh1_cet_r=0 OR -99//

Item #: Q7

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

beh2a_cet: What is the likelihood that you will get a COVID-19 vaccine?

Variable Label: beh2a: Intention to get vaccinated

Value	Value Label
1	Very unlikely
2	Somewhat unlikely
3	Neither likely nor unlikely
4	Somewhat likely
5	Very likely

-99	Refused
-100	Valid Skip

// Page Break //

//BASE: beh1_cet_r=0 OR -99//

Item #: Q8

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

beh3a_cet_r: How soon will you get vaccinated?

Variable Label: beh3a_cet_r: Wait to get vaccinated

Value	Value Label
1	I will get a vaccine as soon as I can
2	I will wait to get a vaccine for one or more reasons
3	I will never get a COVID-19 vaccine
-99	Refused
-100	Valid Skip

// Page Break //

//BASE: All respondents//

Item #: Q9

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

reinfection1: Since the beginning of the pandemic, have you been infected with COVID?

Value	Value Label
0	No
1	Yes
-99	Refused

// Page Break //

//BASE: reinfection1=1//

Item #: Q10

Question Type: Dropdown menu

// Soft Prompt: "We would like your response to this question." //

reinfection2: How many times have you been infected with COVID?

A person is considered to have been reinfected if they test positive again 90 days or more after their first positive test.

Value	Value Label
1	Once
2	Twice
3	Three times
4	Four times
5	Five times
6	Six times
98	More than six times
-99	Refused

// Page Break //

//BASE: All respondents//

Item #: Q11

Question Type: Multi punch

// Soft Prompt: "We would like your response to this question." //

parent: Are you the parent of a child or children in the following age groups?

Variable Label: parent: Parent of children in following age groups

Value	Value Label
1	Younger than 6 months old
2	6 months to <2 years old
3	2 to 4 years old
4	5 to 11 years old
5	12 to 15 years old
6	16 to 17 years old
99	None of the above, I do not have children in those age groups [EXCLUSIVE]
-99	Refused

// Page Break //

//BASE: Parent=4-6//

Item #: Q12

Question Type: Single punch grid

// Soft Prompt: "We would like your response to this question." //

child_vaxxed_2: Has your child(ren) in the following age group(s) received a COVID-19 vaccine?

Note: If you have more than one child in the same age group, please answer for at least one of them.

Variable Name	Variable Text	Variable Label
child_vaxxed_2_4	5 to 11 years old [ONLY SHOW IF parent=4]	child_vaxxed_2_4: 5 to 11 years old
child_vaxxed_2_5	12 to 15 years old [ONLY SHOW IF parent=5]	child_vaxxed_2_5: 12 to 15 years old
child_vaxxed_2_6	16 to 17 years old [ONLY SHOW IF parent=6]	child_vaxxed_2_6: 16 to 17 years old

Value	Value Label
0	No, has not received a COVID-19 vaccine
1	Yes, but has only received one shot out of the two required shots
2	Yes, has received all of the required shots
-99	Refused
-100	Valid skip

// Page Break //

//BASE: child_vaxxed_2_5=2 AND/OR child_vaxxed_2_6=2//

Item #: Q13

Question Type: Single punch grid

// Soft Prompt: "We would like your response to this question." //

child_boosted: Has your child(ren) in the following age group(s) received a COVID-19 vaccine booster shot?

Note: If you have more than one child in the same age group, please answer for at least one of them.

Variable Name	Variable Text	Variable Label
child_boosted_5	12 to 15 years old [ONLY SHOW IF child_vaxxed_2_5=2]	child_boosted_5: 12 to 15 years old
child_boosted_6	16 to 17 years old [ONLY SHOW IF child_vaxxed_2_6=2]	child_boosted_6: 16 to 17 years old

//BASE: All respondents//

Item #: Q17-18

Question Type: Single punch

// Soft Prompt: "We would like your response to this question."//

mono_treat: The FDA has authorized multiple monoclonal antibody treatments for COVID.

Monoclonal antibodies are made in a laboratory, given to patients through an infusion (in other words, an IV), and can help the body fight off COVID.

How much do you agree or disagree with the following statements?

//PROGRAMMING NOTE: RANDOMIZE options //

Variable Name	Variable Text	Variable Label
mono_treat_1	Because monoclonal antibody treatments are available, I am more resistant to getting a COVID	mono_treat_1: Less likely to get vaccinated

	vaccine. [Only SHOW IF BEH1_cet_r=0 OR -99]	
mono_treat_2	Because monoclonal antibody treatments are available, I am more resistant to getting a COVID booster shot. [ONLY SHOW IF booster_uptake4=0 OR -99]	mono_treat_2: Less likely to get booster
mono_treat_3	I would be willing to take a monoclonal antibody treatment if I got a COVID infection.	Mono_treat_3: Willing to take
mono_treat_4	I am less likely to practice preventive measures like masking and social distancing because monoclonal antibody treatments are available.	mono_treat_4: Slow the spread
mono_treat_5	I am worried that the monoclonal antibody treatments are unsafe.	mono_treat_5: Unsafe
mono_treat_6	I think more research on the monoclonal antibody treatments should be conducted.	mono_treat_6: More research
mono_treat_7	I am worried about the short-term side effects of the monoclonal antibody treatments.	mono_treat_7: Short-term side effects
mono_treat_8	I am worried about the potential long-term side effects of the monoclonal antibody treatments.	mono_treat_8: Long-term side effects
mono_treat_9	I am concerned about the ingredients in the monoclonal antibody treatments.	mono_treat_9: Ingredients

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

treat_kids_know: True or false: The FDA recently expanded its approval for another COVID-19 treatment, Veklury (also known as remdesivir), making it the first treatment approved for children under 12.

Variable Label: treat_kids_know: Awareness of Veklury approval for kids under 12

Value	Value Label
1	True

2	False
99	I don't know
-99	Refused

// Page Break //

//BASE: All respondents//

Item #: Q22

Question Type: Single punch

// Soft Prompt: "We would like your response to this question."//

treat_kids_perc: *This is true.* Veklury (also known as remdesivir) is an antiviral treatment that will be available for children 28 days and older who weigh at least 7 pounds, have tested positive for COVID, and are hospitalized or have mild to moderate COVID and are at high risk for severe COVID.

How much do you agree or disagree with the following statements?

//PROGRAMMING NOTE: randomize variables in grid//

Variable Name	Variable Text	Variable Label
treat_kids_perc1	The availability of an antiviral treatment for children makes me more reluctant to get my child(ren) a COVID vaccine. [ONLY SHOW IF parent=4-6 & child_vaxxed_2_4=0, child_vaxxed_2_5=0, or child_vaxxed_2_6=0]	treat_kids_perc1: Less likely to vaccinate eligible child
treat_kids_perc2	The availability of an antiviral treatment for children makes me more reluctant to get my child(ren) under 5 a COVID vaccine, once one is available for them. [ONLY SHOW IF parent=1-3]	treat_kids_perc2: Less likely to vaccinate child under 5 when eligible
treat_kids_perc3	I would be willing to have my child(ren) treated with an antiviral treatment if they had COVID and were eligible for the treatment. [ONLY SHOW IF parent=1-6]	treat_kids_perc3: Willing to give children antiviral treatment
treat_kids_perc4	I am worried that the COVID antiviral treatment for children could be unsafe.	treat_kids_perc4: Worried about safety
treat_kids_perc5	I am worried about the potential side effects of the COVID antiviral treatment for children.	treat_kids_perc5: Potential side effects
treat_kids_perc6	The availability of a COVID antiviral treatment for children is an important step forward in the fight against COVID.	treat_kids_perc6: Important step forward

Value	Value Label
1	Strongly disagree
