

No Material Change Justification

Change 1: Updated title to Coronavirus State and Local Fiscal Recovery Funds Non-Entitlement Units of Local Government Second Tranche Transfer Form (instead of referencing first tranche)

Change 2: On April 4, 2022, SAM.gov transitioned from DUNS numbers issued by Dun and Bradstreet to a Unique Entity Identifier (UEI). Updated verbiage from DUNS to UEI is included in local government and state information fields to account for this change.

Change 3: Removed "Guidance for transfer elections for a second tranche will be made available in advance of the disbursement of those funds." Since this form accounts for the second tranche, this statement is no longer needed.

Change 4: As Treasury is working to automate the transfer process for the second tranche, instructions have been updated from recipient email submission procedure to transfer portal upload procedure.

Change 5: Any reference to first tranche throughout the form has been updated to second tranche.
