Part I - Loan Origination and Lender Loan Fees

This section is divided into five columns. Enter separate line entries for each unique combination of Loan Type, Fee Code, Fee Percent, and Loan Interest Rate. For each line, if any column is completed, all columns for that line must be completed. If applicable, report adjustments to previous quarters.

Applicability: Most FFELP loans were subject to a loan origination fee, which was a percentage of the loan principal and is deducted proportionately from each loan disbursement. The fee depends on the period of enrollment covered by the loan. *The Health Care and Education Reconciliation Act of 2010, Public Law 111-152*, made significant changes to the federal student loan programs, including ending new loans under the FFELP.

Note: Effective July 1, 2010, all federal student loans can only be made under the Direct Loan Program. This section is only used to report adjustment activity.

Loan Type (A)

Enter the 2-letter code of the loan type being reported:

<u>Loan Type</u>	<u>Description</u>
SF	FFELP Subsidized Stafford
SL	FFELP Supplemental Loans for Students (SLS)
PL	FFELP Parent or Grad PLUS (PLUS)
CL	FFELP Consolidation
SU	FFELP Unsubsidized Stafford

Fee Code (B)

Enter the code for the period and type of loan activity being reported:

Lender fee adjustment to previously reported quarters:

LI – Net increase in loans you made or bought as reported for a previous quarter, if you owe the lender fees

LD – Net decrease in loans you made or bought as reported for a previous quarter, if the fees are to be credited to you

Separate entries must be made for origination fees and for lender fees. For lines containing the codes FI and LI, the Department will charge you the fee. For lines containing the codes FD and LD, you will receive credit toward fees due.

Include all loans, which can be classified under the same loan type, the same adjustment fee code, the same fee percent, and the same loan interest rate in one line item. When using an adjustment code, report the sum of all activity for loans made in all prior quarters. Do not make separate entries for each separate prior quarter.

Part II – Interest Benefits

This part is divided into six columns. When billing for interest for the quarter covered by the form, (Billing Code BC), make separate line entries for each different loan type and allowable interest rate. Columns A through E must be completed. Column F, Interest Amount, is for reporting adjustments only. When billing for all other codes (BI and BD), make separate line entries for each type of adjustment. Complete columns A, C, and F. Leave the other columns blank. If additional space is needed, make a copy of the blank page, and check the block at the bottom of each page.

Applicability: In general, the Department will pay the interest due on:

- Subsidized Stafford and Federally Insured Student Loan (FISL) loans while the borrower is in school at least half time, in grace, and during a period of authorized deferment;
- Consolidation loans for which the lender received the application on/after 1/1/1993 and prior to 8/10/1993 during periods of authorized deferment;
- Consolidation loans comprised solely of Subsidized Stafford Loans for which the lender received the application on or after 8/10/1993 and prior to 11/13/1997, during periods of authorized deferment;

- Income Based Repayment (IBR) – on both Subsidized Stafford loans and the subsidized portion of Consolidation loans. On the subsidized loans, if the portion of the scheduled monthly Partial Financial Hardship payment amount attributable to those loans is less than the monthly accrued interest on those loans, the Department will pay the difference, for up to three years

Enter the 2-letter code for the loan type being reported.

Interest Rate (B)

Enter the interest rate (as a decimal) for loans or portions of loans on which you are billing interest for the quarter covered by this form, as explained above. For loans made at rates other than those shown, make separate line entries for each actual rate used (up to five decimal places, then round), for example, for 6.8% enter 0.068.

Note: For adjustments (Billing Codes BI or BD), leave this field blank.

IC – Interest due to you for the current quarter

II – Adjustment, resulting in a net increase in the interest due to you from previous quarters' billings

4. Ending Principal Balance Enter the principal balance of outstanding loans at the end of business on the last day of the quarter. Allowing for rounding, this must equal the sum of lines 1, 2, and 3a through 3h. The formula for calculating the ending principal balance is: $(4) = (1) + (2) + (3a) + (3b) + (3c) + (3d) + (3e) + (3f) + (3g) + (3h)$
