

The Department of Education (the Department) amends the Student Assistance General Provisions regulations issued under the Higher Education Act of 1965, as amended (HEA), to implement changes made to the Student Assistance General Provisions regulations in §668.74 – Employability of graduates. These final regulations are a result of negotiated rulemaking and will add requirements to the current regulations.

The final regulation in §668.74(g)(2) contains a provision that allows the Department to verify that an institution correctly calculated its job placement rate by requiring an institution to furnish to the Secretary, upon request, documentation and other data that was used to calculate the institution’s employment rate calculations.

§668.74 – Employability of graduates.

Under final section §668.74(g)(2), the Department is regulating the misrepresentation of employability of an institution’s graduates such that an institution must, upon request, furnish the Secretary with documentation and other information used to calculate the institution’s employment rate calculations upon which a student may rely to enter into a program of study. _

AFFECTED ENTITIES AND BURDEN:

We believe there will be modest burden to an institution to fulfill such a request as this will consist of providing the existing background data which were used in the employment rates that were presented to the student borrowers. We believe that such required reporting will be made by 2 Private Not-for-profit, 2 For-Profit and 2 Public institutions annually. It is anticipated that 6 institutions will receive such a request and that it will take 8 hours to copy and prepare for submission to the Department such evidence of their calculated employment rates for a total of 48 burden hours (6 institutions X 1 response x 8 hours = 48 burden hours).

These regulations change the respondents/responses/burden hours for Public Institutions in this collection by 2/2/16.

TOTALS

Responses	324,862
Respondents	170,258
Burden Hours	676,636
