

### ICR Summary Information

Hours per Response	26
Number of Respondents	48
Total Estimated Burden Hours	4,530
Total Estimated Costs	\$636,000
Annualized Capital O&M	\$93,400
Total Annual Responses	177
Form Number	Not Applicable

**Table 1: Annual Respondent Burden and Cost – NSPS for Pressure Sensitive Tape and Label Sur**

G. Audits	N/A				
<b>Subtotal for Recordkeeping Requirements</b>					
<b>TOTAL LABOR BURDEN AND COST (rounded) <sup>i</sup></b>					
<b>TOTAL CAPITAL AND O&amp;M COSTS (rounded) <sup>j</sup></b>					
<b>GRAND TOTAL (rounded): <sup>i</sup></b>					

**Assumptions:**

<sup>a</sup> We have assumed that the average number of respondents potentially subject to this rule is 48. There will be one additional period of this ICR.

<sup>b</sup> This ICR uses the following labor rates: \$157.61 per hour for Executive, Administrative, and Managerial labor; \$123.94 per hour for Clerical labor. These rates are from the United States Department of Labor, Bureau of Labor Statistics, September occupational and industry group. The rates are from column 1, Total compensation. The rates have been increased by 110 percent to reflect inflation packages available to those employed by private industry.

- <sup>c</sup> We have assumed that it will take 0.87 hours for a new respondent to read instructions.
- <sup>d</sup> We have assumed that 20 percent of respondents will have to repeat performance tests because of failure.
- <sup>e</sup> We have assumed that each source submits one excess emission report every year, in addition to the required semiannual r
- <sup>f</sup> We have assumed that 80 percent of sources will use incineration to control emissions.
- <sup>g</sup> We assume that each respondent will take 0.87 hours once per month to record performance test.
- <sup>h</sup> We assume that each respondent will take 0.22 hours 250 time per year to record operating parameters.
- <sup>i</sup> Totals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.

<b>TOTAL ANNUAL LABOR BURDEN AND COSTS (rounded) <sup>g</sup></b>					

**Assumptions:**

<sup>a</sup> We have assumed that the average number of respondents potentially subject to this rule is 48. There will be one additional period of this ICR.

<sup>b</sup> Labor rates for Federal agency personnel were applied to State/Local agencies, and are based on the average hourly labor rate for GS-13, Step 5, \$44.10 + 60%; Technical \$52.37 (GS-12, Step 1, \$32.73 + 60%); and Clerical \$28.34 (GS-6, Step 3, \$17.17 + 60%). Clerical hours are 5 percent of Technical hours, and Clerical hours are 10 percent of Technical hours. These rates are from the OPM, locality rates of pay. The rates have been applied to local agencies and have been increased by 60 percent to account for the higher rates for government employees.

<sup>c</sup> We assume that each of the new facilities will submit initial notifications.

<sup>d</sup> We assume that each source submits one excess emission report every year, in addition to the required semiannual report.

<sup>e</sup> We assume that 80 percent of sources use incineration.

<sup>f</sup> We assume that temperature reports are conducted two times per year.

<sup>g</sup> Totals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.
