FROM THE ASSOCIATE DIRECTOR FOR DECENNIAL CENSUS PROGRAMS

The U.S. Census Bureau is accepting cases for the 2020 Post-Census Group Quarters Review (PCGQR) beginning mid-June 2022 until June 30, 2023.

The 2020 PCGQR provides a mechanism for governmental units in the United States and Puerto Rico, or their designated representatives, to request that the Census Bureau review their population counts for group quarters they believe were not counted correctly as of April 1, 2020.

If the review process finds discrepancies in these population counts supported by sufficient documentation, approved revisions to the group quarters population will be provided to the Population Estimates Program. These updates will be incorporated into the next population base that the production schedule allows. The population estimates developed from the updated population base will also be used by the American Community Survey and the Puerto Rico Community Survey as survey controls so that the population totals from the survey conform to the updated population estimates. Governmental units include tribal, state, and local officials or their designated representatives.

Please note that the 2020 PCGQR does not constitute a recount for the 2020 Census. For example, 2020 Census data products and counts delivered to the President for apportionment, or the 2020 Census Public Law 94-171 Redistricting Data Files and Geographic Products will not be updated as a result of the 2020 PCGQR.

Please refer to the attached 2020 PCGQR flyer for more information about this voluntary program. For further details, visit the 2020 PCGQR website at <https://www.census.gov/programs-surveys/decennial-census/decade/2020/planning-management/evaluate/pcgqr.html> as well as the Federal Register Notice, also available on the website.

If you have any questions, please contact the 2020 PCGQR by phone at 1-(844) 242-1765 or by email at <DCMD.2020.PCGQR.Submissions@census.gov>.

Sincerely,

A handwritten signature in black ink, appearing to read 'A. Fontenot, Jr.', with a large, sweeping flourish extending to the right.

Albert E. Fontenot, Jr.
Associate Director for
Decennial Census Programs
