The U.S. Census Bureau is now conducting the Boundary and Annexation Survey (BAS). Do not miss this opportunity to participate in BAS to ensure that the Census Bureau has current and accurate boundary, legal name, and status information for your government. Participants may also provide updates to census designated places.

BAS is a voluntary survey. We strongly encourage your participation in BAS for the following reasons:

- The Census Bureau uses this boundary information for data collection, tabulation, and dissemination for the decennial census, American Community Survey (ACS), Population Estimates Program (PEP), and many other censuses and surveys.
- The federal government allocates more than \$675 billion in federal funds annually for health, welfare, infrastructure, education, and other federal programs and services. Correct boundaries ensure governments receive funds appropriately and have the best data available for their decision-making processes.

Action Steps:

- Verify that the BAS contact has responded to the survey. The BAS announcement email was recently sent to this BAS contact:
