Introduction and Instructions

Thank you in advance for your participation in the 2022 annual Synopses of Dental Public Health Programs (Synopses) survey that collects data for state FY 2020-2021. Your participation and effort are sincerely appreciated. This Synopses continues ASTDD's efforts to provide a complete and accurate picture of state dental public health programs across the nation. Since the Synopses is the only source for much of this information, your contribution is essential. *Please complete and submit the survey by February 28, 2022.*

As you complete this questionnaire, responses are saved once you click the "Next Page" button at the end of each page and information can be changed at any time. To exit the survey and return to it later, simply close your browser. When you access the survey again, you will be directed to the last page accessed by someone working on the survey. If you want to go to previous pages, click the "Previous Page" button at the bottom of the page until you reach the page you want. NOTE: If a question has an asterisk (*) next to the question number, you are required to provide an answer. If you don't know the answer, select or enter don't know (DK) or not applicable/available (NA). VERY IMPORTANT: The online question numbering system is dependent on the skip patterns. For this reason, the numbers on the paper form may not match the numbers on the online version.

Getting Help with the Synopses Questionnaire

If you have questions or need help with completing the questionnaire, please contact: Kathy Phipps, ASTDD Data and Surveillance Coordinator kphipps@astdd.org 805-776-3393 (Pacific time zone)

OMB Approval Number: XXXX-XXX Expiration Date: XX/XX/XXXX

2022 Synopses of State Dental Public Health Programs (FY 2020-2021)

General Information

| * 1. State Name | |
|--|---------------------------------|
| | |
| * 2. During FY 2020-2021, did your state have | ve a state oral health program? |
| Yes | |
| No (You do not need to complete the questionna | aire) |

Public reporting burden of this collection of information is estimated to average 351 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74 Atlanta, Georgia 30333; ATTN: PRA (0920-1132)

Dental Director/Program Manager Information

| 3. Does your state currently have a state Dental Director/Program Manager? NOTE: If your state has both a state Dental Director and a Program Manager, this question refers to the Dental Director position. No |
|--|
| Yes – Acting Director/Manager |
| Yes – Permanent Director/Manager |

| 2022 Synopses of State Dental Public Health Programs (FY 2020-2021) |
| School Dental Sealant Programs |
| The next several questions are designed to obtain information on school sealant programs including |
| school-based or school-linked sealant programs. If you do not have data on the number of children of |
| · · · |
| schools, please put "NA" in the "Number" box. Your state may have different eligibility criteria for |
| school sealant programs but for these questions, we are interested in <i>public primary and middle</i> |
| schools with 50% or more of students eligible for the National School Lunch Program (NSLP, also |
| referred to as free/reduced lunch [FRL]). Please include both traditional public and public charter |
| schools. |
| |
| Definitions: |
| School-based sealant programs: Conducted completely within the school setting, with teams of denta |
| providers (dentists, dental hygienists and dental assistants) using portable or mobile dental |
| equipment or a fixed facility within the school setting. |
| School-linked programs: Connected with schools in some manner but deliver the sealants at a site |
| other than the school. |
| State funds, manages or operates: The state oral health program provides funding for the |
| implementation of local sealant programs and/or provides direct sealant services. |
| Primary school: A school offering a low grade of prekindergarten to 3 and a high grade of 8 or lower, |
| defined by the National Center for Education Statistics (NCES). |
| Middle school: A school offering a low grade of 4 to 7 and a high grade of 9 or lower, defined by the |
| NCES. |
| |
| 46. How many public primary and middle schools in your state have 50% or more of the enrolled students |
| eligible for NSLP (also referred to as FRL). If unknown or not available, enter NA. |
| |
| |

45. How much additional money is allocated and what programs/services are funded? Examples: (1) MCHBG

| 47. During the 2020-2021 school year, how many of the <u>schools</u> answered in the previous question had a school-based/linked sealant program <i>funded, managed, or operated by your state oral health program?</i> If you do not have a school sealant program enter 0. If unknown or not available, enter NA. |
|---|
| 48. During the 2020-2021 school year, how many <u>students</u> at the schools answered in the previous question received sealants from a program <i>funded, managed or operated by your state oral health program?</i> If you do not have a school sealant program enter 0. If unknown or not available, enter NA. |
| 49. During the 2020-2021 school year, how many <u>schools</u> answered in the first sealant question had a school-based/linked sealant program that was <u>NOT</u> funded, managed, or operated by your state oral health program? If unknown or not available, enter NA. |
| 50. During the 2020-2021 school year, how many <u>students</u> at the schools listed in the previous question received sealants from a sealant program that was <u>NOT</u> funded, managed, or operated by your state oral health program? If unknown or not available, enter NA. |
| 2022 Synopses of State Dental Public Health Programs (FY 2020-2021) |
| Oral Health Surveillance |
| The following questions are designed to obtain information about oral health surveillance in your state using the Council of State and Territorial Epidemiologists definition. |
| 51. Does your state have a written oral health surveillance plan? |
| No Yes In Process |
