Public reporting burden for this collection of information is estimated to average 18 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or an estimate

## Accomplishments (B4-6)

B.4 What opportunities for training and professional development has the project provided?

If the research is not intended to provide training and professional development opportunities or there is nothing significant to report during this reporting period, select "Nothing to Report."

For T, F, K, R25, R13, D43 and other awards or award components designed to provide training and professional development opportunities, a response is required. Do not reiterate what is reported under Accomplishments. Limit the response to this reporting period.

For all awards, provide a PDF that includes: (1) a completed Trainee Diversity Report, covering the individuals supported by the award during the reporting period (generally not applicable for FIC awards); and (2) a paragraph for each trainee/scholar supported by the award describing activities and progress during the reporting period. Include the following information for each trainee/scholar, as applicable:

- · Degrees working toward or held
- Mentor(s)
- · Description of the trainee/scholar's research project and progress
- Coursework
- · Conference presentations
- A description of the trainee/scholar's role in any planned or published papers resulting from research conducted while supported by this award (e.g.,
  designed or conducted experiment, analyzed data, drafted paper). Note that full citations of all publications arising from work conducted while the
  trainee/scholar was supported by the award should not be reported here, as they will be collected in Section C.1.
- · Fellowships or other support
- · Workshops attended
- · Career development activities

This description should be sufficient to allow evaluation of the appointees' progress towards the goals of the training grant.

Indicate whether the institution uses Individual Development Plans (IDPs) for graduate students and postdoctoral researchers, and if so, describe how they were used in this reporting period to help manage the training and career development of the trainees/scholars (do not include actual IDPs). **This information is not required for AHRQ grantees.** 

For NIH TU2, T15, T32, T37, T90, U90, and TL1 awards, include program statistics for doctoral training in Table 8A.

Generate the Trainee Diversity Report

## Nothing to Report

#### Upload Description, as applicable

(Maximum 1 file. Must be .pdf file. Maximum file size: 6 MB)

Drop files to attach, or browse.

Provide updated information in table 8A, 8B, 8C and/or 8D, as applicable, reflecting new apointments and other changes over the reporting period. For applicable NIH awards, include program statistics for doctoral training in Table 8A.

Once the RPPR RTD has been finalized in xTRACT the appropriate training tables, which may be seen when you view your draft RPPR, will be added to the RPPR PDF.

▼ B.5 How have the results been disseminated to communities of interest?

Describe how the results have been disseminated to communities of interest. Include any outreach activities that have been undertaken to reach members of communities who are not usually aware of these research activities, for the purpose of enhancing public understanding and increasing interest in learning and careers in science, technology, and the humanities.

Reporting the routine dissemination of information (e.g., websites, press releases) is not required. For awards not designed to disseminate information to the public or conduct similar outreach activities, a response is not required and the grantee should select "Nothing to Report". A detailed response is only required for awards or award components that are designed to disseminate information to the public or conduct similar outreach activities. Note that scientific publications and the sharing of research sources will be reported under Products.

Nothing to Report

## or enter response below

8000 characters remaining.

B.6 What do you plan to do during the next reporting period to accomplish the goals?

Describe briefly what you plan to do during the next reporting period to accomplish the goals and objectives.

🕝 Remember that significant changes in objectives and scope require prior approval of the agency (e.g., NIH Grants Policy Statement, 8.1.2.).

Include plans for any modification based on the findings of your internal evaluations.

Enter response below

8000 characters remaining.

## Tips & Notes:

- Alert: Please save all changes before leaving the page.
- Reminder: All PDF files should be flattened before uploading to ensure successful submission. See instructions on how to flatten PDF here.
- THE FOLLOWING DOES NOT APPLY TO FELLOWSHIPS:
  - For NIH awards, Commons IDs are now required for individuals with the Undergraduate, Graduate Student, and Postdoctoral roles.
  - Additionally, individuals with these roles on a project are required to complete the following fields in the Commons Personal Profile; Date of Birth, Gender, Ethnicity and Race, Disability, and
    Citizenship Status. For the Gender, Race and Ethnicity, and Disability fields, one of the acceptable responses is 'Do not wish to provide'. Individuals with a Graduate Student role must enter at
    least one degree, and those with a Postdoctoral role must enter a doctoral degree. The profile must also include the name of institution issuing the degree.

Expand/Collapse All

Add Participant

## **▼** D.1 What individuals have worked on the project?

- Provide or update the following information only for K12 and KL2 progress reports:
  - 1. program director(s)/principal investigators(s) (PDs/PIs); and
  - each person who has worked at least one person month per year on the project during the reporting period, regardless of the source of compensation
    (a person month equals approximately 160 hours or 8.3% of annualized effort). Do not report personnel for whom a PHS 2271 Appointment form has
    been submitted through xTRAIN. If not reporting on a K12 or KL2 award, disregard this section.

Provide the name and identify the role the person played in the project. Indicate the nearest whole person month (Calendar, Academic, Summer) that the individual worked on the project. Show the most senior role in which the person has worked on the project for any significant length of time. For example, If an undergraduate student graduates, enters graduate school, and continues to work on the project, show that person as a graduate student.

- . An individual's Commons user ID may be used to partially populate his or her information.
- A Commons ID is required for all individuals with a postdoctoral role and/or supported by a Reentry or Diversity Supplement
- Individuals with a postdoctoral-like role should be identified as "Postdoctoral (scholar, fellow, or other postdoctoral position)."
- · Do not include Other Significant Contributors who are not committing any specified measurable effort to this project.
- . Do not report personnel for whom a PHS 2271 Appointment form has been submitted through xTRAIN.
- · Required fields are marked with an \*.

## Participants (D2)

▼ D.2.a Level of Effort
Will there be, in the next budget period, either  1. a reduction of 25% or more in the level of effort from what was approved by the agency for the PD/PI(s) or other senior/key personnel designated in the Notice of Award, or  2. a reduction in the level of effort below the minimum amount of effort required by the Notice of Award?  Yes  No
Reductions are cumulative, i.e., the 25% threshold may be reached by two or more successive reductions that total 25% or more. Once agency approval has been given for a significant change in the level of effort, then all subsequent reductions are measured against the approved adjusted level. Selecting "yes" constitutes a prior approval request to the agency and the issuance of a subsequent year of funding constitutes agency approval of the request. If yes, provide an explanation below
700 characters remaining.
▼ D.2.b New Senior/Key Personnel
Are there new training faculty?   Yes   No
▼ D.2.c Changes in Other Support Help
Has there been a change in the active other support of senior/key personnel since the last reporting period? O Yes • No
▼ D.2.d New Other Significant Contributors
Are there, or will there be, new other significant contributors?   Yes   No
Are there, or will there be, new other significant contributors? ○ Yes ○ No  ▼ D.2.e Multi-Pl (MPI) Leadership Plan

## ▼ H1. Budget Form

For training awards, grantees should select the applicable RPPR budget type (e.g., SF424 (R&R) or PHS 398 Training Budget) from the drop down menu. For a small number of NIH training awards the grantee is required to submit both the SF424 (R&R) and PHS 398 Training Budget; the RPPR will accommodate this.

If completing the SF424 (R&R), follow the instructions in the SF424 (R&R) Application Guide for NIH and Other PHS Agencies, Section I, 4.7 R&R Budget Component, sections A-K. The budget justification should be uploaded as item K, and must include detailed justification for those line items and amounts that represent a significant change from previously recommended levels (e.g., total rebudgeting greater than 25 percent of the total award amount for this budget period).

If completing the PHS 398 Training Budget, follow the instructions in the SF424 (R&R) Application Guide for NIH and Other PHS Agencies, Section I, 8.5 PHS 398 Training Budget Component, items A-F. The budget justification should be uploaded as item F, and must include detailed justification for those line items and amounts that represent a significant change from previously recommended levels (e.g., total rebudgeting greater than 25 percent of the total award amount for this budget period).

Select a budget to add from the dropdown list:

### 

For awards with subaward/consortium budgets, the grantee may select up to 30 subaward budgets. To complete a detailed budget for a subaward/consortium, follow the SF424 (R&R) Application Guide for NIH and Other PHS Agencies, Section I, 4.8 Special Instructions for Preparing Applications with a Subaward/Consortium or 8.6 PHS 398 Training Subaward Budget Attachment(s) Form.

Select a budget to add from the dropdown list:

# I. Outcomes ?

## Tips & Notes:

🕢 For NIH Section I. Outcomes will be made publicly available, thus allowing recipients to provide the general public with a concise summary of the cumulative outcomes or findings of the project at the end of a competitive segment. For NIH awards the length should not exceed half a page. In addition, for the interim or final RPPR the summary of outcomes or findings of the award must be written in the following format:

- · Is written for the general public in clear, concise, and comprehensible language;
- · Is suitable for dissemination to the general public, as the information may be available electronically;
- · Does not include proprietary, confidential information or trade secrets

Please refer to the following link for samples of acceptable project

outcomes: https://grants.nih.gov/grants/rppr/sample\_project\_outcomes\_RPPR.htm
