

Job Corps Data Collection Instrument
Question by Question Justification

Content of Questions	Question Numbers	Rationale
Placement Reverification for Employers and Educational Institutions (EV & SV)		
Verification of Employment	EV1 – EV7	These instruments include a series of questions designed to reverify the student’s initial job or school placement with employers and educational institutions. Questions are included to assess whether the student met the Job Corps definition of “being placed” for different placement categories, including: part- or full-time employment, school/training, job and college combination, or job placement. The purpose of the re-verification is to monitor the services provided by placement contractors to ensure that contract requirements are being met and students are receiving quality services. If responses to the reverification questions indicate that the placement may not have been valid, a “questionable placement” is identified. Such notations will be used to generate notices for the appropriate Job Corps office for final determination.
Verification of School/Training Experience	SV1 – SV6
