

U.S. DEPARTMENT OF HOMELAND SECURITY U.S. COAST GUARD	Marine Occupational Health and Safety Standards for Benzene 46 CFR 197 Subpart C	OMB No. 1625- 0063 Exp: 11/30/2022
---	--	--

<b>Who must comply?</b>	Owners and operators of vessels.
<b>What is this collection about?</b>	The purpose of this information collection requirement is to ensure compliance with the Benzene regulations.
<b>Where do I find the requirements for this information?</b>	Title 46 CFR 197 subpart C, is available at— <a href="https://www.eCFR.gov">https://www.eCFR.gov</a> , select TITLE 46 – SHIPPING, and follow to Part 197 subpart C.
<b>When must information be submitted to the Coast Guard?</b>	This information is not submitted to the Coast Guard, but must be maintained in accordance with the regulations by a vessel owner/operator and made available for inspection by Coast Guard personnel.
<b>How is the information submitted?</b>	The information is not submitted to the Coast Guard; rather it is maintained by a vessel owner/operator. A vessel owner/operator determines what method of information collection (e.g., paper or electronic) is best for their company.
<b>What happens when complete information is received?</b>	The Coast Guard, based on the information reviewed, will make a determination if a vessel owner/operator is in compliance with the Benzene regulations.
<b>For additional information, contact--</b>	Your local CG Sector Office. <ul style="list-style-type: none"> <li>A list of Coast Guard sectors, as part of a comprehensive list of Coast Guard units, can be found at <a href="https://www.uscg.mil/Units/Organization/">https://www.uscg.mil/Units/Organization/</a>.</li> </ul>

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number.

The Coast Guard estimates that the average burden per response for this report varies per information collection--about 1.5 hours info exchange w/ medical staff, MSDS posting and recordkeeping of employee training; 6 hours for medical monitoring; about 5 hours for respirator fit tests and recordkeeping; 26 hours for respirator protection program development; 42 hours for exposure reduction program development; up to 200 hours for initial/periodic exposure monitoring/notification. You may submit any comments concerning the accuracy of this burden estimate or any suggestions for reducing the burden to: Commandant (CG-CVC), U.S. Coast Guard Stop 7501, 2703 Martin Luther King Jr Ave SE, Washington, DC 20593-7501 or Office of Management and Budget, Paperwork Reduction Project (1625-0063), Washington, DC 20503.
