# EL Services and Programs in Your District

The following questions focus on instruction of ELs in your district.

**B.1.** For approximately what percentage of elementary (K-5<sup>th</sup> grade) ELs in your district is the approach below the main approach for EL services?

Please enter an approximate percentage on each row. If no students receive such a service, or the service is not a primary instructional approach, write in 0%. Total should sum to 100%.

	% of ELs for whom this is main approach
<p><b>A. English as a Second Language (ESL)</b></p> <p>This is a program of techniques, methodology, and special curricula designed to teach EL students English language skills, which may include listening, speaking, reading, writing, study skills, content vocabulary, and cultural orientation. ESL instruction is usually in English with little use of native language. This type of instruction is also known as English language development (ELD).</p>	
<p><b>B. Content classes with integrated ESL support</b></p> <p>This approach makes use of instructional materials, learning tasks, and classroom techniques from academic content areas as the vehicle for developing language, content, cognitive and study skills. English is used as the medium of instruction.</p>	
<p><b>C. Transitional bilingual education (also known as early-exit bilingual)</b></p> <p>This program utilizes a student's primary language in instruction. The program maintains and develops skills in the primary language and culture while introducing, maintaining, and developing skills in English. The primary purpose of a transitional bilingual education (TBE) program is to facilitate the EL student's transition to an all-English instructional program while receiving academic subject instruction in the native language to the extent necessary.</p>	
<p><b>D. Dual language or two-way immersion</b></p> <p>The goal of these bilingual programs is for students to develop language proficiency in two languages by receiving instruction in English and another language in a classroom in which half of the students are native English speakers and the other half of the students are native speakers of the other language. Another stated goal of dual language programs is to promote cross-cultural understanding among students.</p>	
<p><b>E. Newcomer program</b></p> <p>These programs are separate, relatively self-contained educational interventions designed to meet the academic and transitional needs of newly arrived immigrants. Typically, students attend these programs before they enter more traditional interventions (e.g., English language development programs or mainstream classrooms with supplemental ESL instruction).</p>	
<p>f. <b>Other (please specify):</b></p> <p>_____</p> <p>_____</p>
