Description & Funding

Description

Priority: Standard

Determination Start Date: 08/17/23

Description: In 2019, the division's Matrix Evaluation Team (MET), with ELWB program input, designed alumni surveys for ELWB programs Epidemic Intelligence Service (EIS), Laboratory Leadership Service (LLS), Epidemiology Elective Program (EEP), and Science Ambassador Fellowship (SAF). These surveys were OMB approved, but never launched. The Division of Workforce Development (DWD) is now interested in reviving, updating, and piloting the surveys. The survey will be sent to alumni 1-, 3-, and 5-year post graduation (classes of 2020, 2018, and 2016). Each program will have two or three separate surveys with questions specific for each survey distribution cycle (there will be no 1-year SAF alumni survey due to COVID-19 affecting SAF class of 2020 participation).

IMS/CIO/Epi-Aid/Lab-Aid/Chemical Exposure Submission: No

IMS Activation Name: Not selected

Primary Priority of the Project: Not selected

Secondary Priority(s) of the Project: Not selected

Task Force Associated with the Response: Not selected

CIO Emergency Response Name: Not selected

Epi-Aid Name: Not selected

Lab-Aid Name: Not selected

Assessment of Chemical Exposure Name: Not selected

Goals/Purpose To improve the public health workforce.

Objective: To answer the following evaluation questions: 1. What kinds of positions do alumni take after the fellowship/program? a. In what settings are post-fellowship positions? b. To what extent/how are alumni advancing in their careers? c. To what extent do alumni serve as public health leaders? d. How are the positions alumni take after the fellowship similar or different across race, ethnicity, gender, and age? 2. To what extent does the fellowship/program prepare alumni for post-fellowship roles? a. To what extent are alumni using the fellowship/program competencies? b. What competencies were not addressed during the fellowship/program that are needed in current roles? 3. To what extent are alumni engaged in the fellowship/program? a. How are alumni engaged in serving as mentors or supervisors to current fellows/students? ** Not relevant to SAF **Not relevant to EEP

Does your project measure health disparities among populations/groups experiencing social, economic, geographic, and/or environmental disadvantages?:	No
Does your project investigate underlying contributors to health inequities among populations /groups experiencing social, economic, geographic, and/or environmental disadvantages?:	No
Does your project propose, implement, or evaluate an action to move towards eliminating health inequities?:	No
Activities or Tasks:	New Collection of Information, Data, or Biospecimens
Target Populations to be Included/Represented:	Other - ELWB program alumni (specifically EIS, LLS, EEP, and SAF alumni)
Tags/Keywords:	Program Evaluation
CDC's Role:	Activity originated and designed by CDC staff, or conducted at the specific request of CDC, or CDC staff will approve study design and data collection as a condition of any funding provided ; CDC is the sole institution conducting activity
Method Categories:	Survey
Methods:	Online surveys will be sent to EIS, EEP, LLS, and SAF alumni for whom the programs have current email addresses. Each program will have its own unique survey. The surveys will be administered in SurveyMonkey. The survey will be sent to approximately 203 EIS alumni, 140 EEP alumni, 17 LLS alumni, and 59 SAF alumni in total. The survey will be managed in SurveyMonkey. All EIS, LLS, EEP, and SAF alumni for whom we have current email addresses will be asked to complete a web-based survey that includes both open and closed-ended questions. Email addresses will be provided by the programs. We will conduct an internet search for missing email addresses. Email invitations and reminder emails will be sent from the ELWBeval@cdc.gov inbox and directly from the SurveyMonkey platform. Data will be exported from SurveyMonkey and stored on a CDC-secured location. PII, including name and personal email addresses, will NOT be collected in the survey.
Collection of Info, Data or Biospecimen:	
Expected Use of Findings/Results and their impact:	Data will be used by ELWB and Division of Workforce Development (DWD) staff to monitor program outcomes related to alumni. DWD will also use the data to guide alumni survey development and implementation of other DWD branch alumni surveys in the future.
Could Individuals potentially be identified based on Information Collected?	Yes
Will PII be captured (including coded data)?	No
Is this project covered by an Assurance of Confidentiality?	No
Does this activity meet the criteria for a Certificate of Confidentiality (CoC)?	Yes
Has the required language for the Certificate of Confidentiality been incorporated into the Protocol and/or Consent Form?	Yes

Is there a formal written agreement prohibiting the release of identifiers? No

Suggested level of risk to subjects

Do you anticipate this project will be exempt

research or non-exempt research

Requested consent process wavers

Informed consent for adults	No Selection
Children capable of providing assent	No Selection
Parental permission	No Selection
Alteration of authorization under HIPPA Privacy Rule	No Selection

Requested Waivers of Documentation of Informed Consent

Informed consent for adults	No Selection
Children capable of providing assent	No Selection
Parental permission	No Selection

Consent process shown in an understandable language

Reading level has been estimated	No Selection
Comprehension tool is provided	No Selection
Short form is provided	No Selection
Translation planned or performed	No Selection
Certified translation / translator	No Selection
Translation and back-translation to/from target language(s)	No Selection
Other method	No Selection

Clinical Trial

Involves human participants	No Selection
Assigned to an intervention	No Selection
Evaluate the effect of the intervention	No Selection
Evaluation of a health related biomedical or behavioral outcome	No Selection
Registerable clinical trial	No Selection

Other Considerations

Exception is requested to PHS informing those bested about HIV serostatus	No Selection
Human genetic testing is planned now or in the future	No Selection
Involves long-term storage of identifiable biological specimens	No Selection
Involves a drug, biologic, or device	No Selection
Conducted under an Investigational New Drug exemption or Investigational Device Exemption	No Selection
