SUPPLEMENTARY INFORMATION:

Title: FERC-511, Transfer of
Hydropower License.¹

OMB Control No.: 1902-0069.

Type of Request: Three-year extension
of the FERC-511 information collection
requirements with no changes to the
current reporting and recordkeeping
requirements.

Abstract: The purpose of FERC-511 is
to implement the information
collections pursuant to Section 8 of the
Federal Power Act (FPA) and Code of
Federal Regulations (CFR) under Title
18 CFR part 9 (Transfer of License)
Sections 9.1 through 9.3 and Section
131.20 of the 18 CFR. Section 8 of the
FPA stipulates that no voluntary
transfer of any license, or the rights
thereunder granted, shall be made
without the written approval of the
Commission. Sections 9.1 through 9.3 of
the 18 CFR states that any licensee
(transferor) desiring to transfer a license
and the person, association, corporation,

State, or municipality (transferee)
desiring to acquire the same must
jointly file an application for
Commission’s approval of such transfer.

The application must show that the
transfer is in the public interest and
provide the qualifications of the
transferee to hold such license and to
operate the property under the license.
Approval of the transfer is contingent
upon the transfer of title to the
properties under the license, transfer of
all project files including all dam safety
related documents, and delivery of all
license instruments. The application for
approval of transfer of license must
conform to the requirements of Sections
131.20 of the 18 CFR, which must
include the following: application
statement by all parties; verification
statement; proof of citizenship; evidence
of compliance by the transferor with all
applicable state laws or how the
transferee proposes to comply; and
qualifications of the transferee to hold
the license and operate the project.

The Commission uses the information
collected under the requirements of
FERC-511 to implement the statutory
provisions of Sections 8 of the Federal
Power Act (FPA) and 18 CFR part 9 and
18 CFR 131.20 of the Commission’s
regulations. The information filed with
the Commission is in the format of a
written application for transfer of
license, executed jointly by the parties
of the proposed transfer. The
Commission uses the information
collected to determine the qualifications
of the proposed transferee to hold the
license and to prepare the transfer of the
license order to make its determination.

Type of Respondent: Existing
Hydropower Project Licensees and those
entities wishing to have a Hydropower
Project License transferred to them.

Estimate of Annual Burden:² The
Commission estimates the annual
burden and cost³ for the information
collection as follows.

² Burden is defined as the total time, effort, or
financial resources expended by persons to
generate, maintain, retain, or disclose or provide
information to or for a federal agency. See 5 CFR
1320 for additional information on the definition of
information collection burden.

³ The FERC 2022 average salary plus benefits for
one FERC full-time equivalent (FTE) is \$188,922/
year (or \$91.00/hour). Commission staff estimates
that the industry’s skill set (wages and benefits) for
completing and filing FERC-511 is comparable to
the Commission’s skill set.

¹ The title is being updated to Transfer of
Hydropower License (rather than Transfer of
Electric License).

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

[FRL-10396-01-R9]

Delegations of the Prevention of Significant Deterioration Air Permitting Program to the Maricopa County Air Quality Department and the Pima County Department of Environmental Quality

AGENCY: United States Environmental Protection Agency (EPA).

ACTION: Notice of delegations of authority.

SUMMARY: This notice announces that the Environmental Protection Agency (EPA), Region 9, has revised its delegation agreements with the Maricopa County Air Quality Department (MCAQD) and Pima County Department of Environmental Quality (PCDEQ) for implementation of the

⁴ The number of respondents has been reduced from 46 to 13 for this renewal; this is based on the average number of filings made in the past three years.

⁵ The cost per respondent has not actually increased between this renewal and the previous renewal, but a mathematical error has been corrected. We estimate the cost per response to be the same: \$3,640.

federal Clean Air Act Prevention of Significant Deterioration (PSD) permitting program. The revised and updated delegation agreements authorize these air pollution agencies in Arizona to continue to conduct PSD review for proposed new and modified major stationary sources, issue initial federal PSD permits, and revise existing federal PSD permits, subject to the terms and conditions of the applicable delegation agreement.

DATES: The revised PSD delegation agreements with the MCAQD and the PCDEQ became effective on October 2, 2022, and June 5, 2018, respectively. Pursuant to section 307(b)(1) of the Clean Air Act, 42 U.S.C. 7607(b)(1), judicial review of these final agency actions, to the extent it is available, may be sought by filing a petition for review in the United States Court of Appeals for the Ninth Circuit within 60 days of November 30, 2022.

ADDRESSES: The revised delegation agreements are available on Region 9's website at <https://www.epa.gov/caa-permitting/air-permit-delegation-and-psd-sip-approval-status-epas-pacific-southwest-region-9>. For additional information, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section.

FOR FURTHER INFORMATION CONTACT: Gerardo Rios, EPA Region 9, 75 Hawthorne Street (AIR-3-1), San Francisco, California 94105. By phone at (415) 972-3974, or by email at rios.gerardo@epa.gov.

SUPPLEMENTARY INFORMATION: Pursuant to 40 CFR 52.21(u), the EPA signed revised PSD delegation agreements with the MCAQD and PCDEQ. The EPA signed a greenhouse gas (GHG) PSD delegation agreement with the MCAQD on October 2, 2022. The EPA also signed a PSD delegation agreement that applies to all PSD pollutants, including both attainment/unclassifiable pollutants and GHGs, with the PCDEQ on June 5, 2018. The delegation agreements authorize these Arizona air pollution agencies to implement the PSD program under sections 160-169 of the Clean Air Act (CAA) and 40 CFR 52.21 for the applicable pollutants, including

conducting PSD review and the issuance and revision of PSD permits.

The delegation agreements set forth the terms and conditions according to which the agencies will implement the PSD regulations at 40 CFR 52.21. Under the PSD program, major stationary sources of air pollutants must apply for and receive a permit prior to construction of new facilities or certain modifications to existing facilities.

While the abovementioned Arizona air pollution agencies have been delegated the authority to implement and enforce the PSD program, nothing in the delegation agreements prohibits the EPA from enforcing the PSD provisions of the CAA, the PSD regulations, or the conditions of any PSD permit issued by the air pollution agencies.
