Provide a description of the process agent use that includes details of the percentage entrained in the final product. §84.31(g)(1)(i)

Provide a description of all technologies and actions taken to minimize emissions of r

**Should the description of technologies and actions taken to minimize emissions of regulated substances be treated as confidential business information (CBI)?**

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501-3507, and is mandatory (40 CFR 84.31). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and reviewing and revising your answers. Send comments regarding this burden estimate or any suggested method for minimizing response burden, including suggestions for reducing the number of questions, to Washington Field Office, Support Division, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, DC 20460. Send the completed form to this address.
