

Appendix A: Digital Inclusion Corps Pilot Project (DICPP)

The Digital Inclusion Corps Pilot Project (DICPP) surveys will collect pre/post project information from anchor institutions (host organizations) and local DICPP community collaborators (partners).

Data collection activities will also be conducted with DICPP leadership and project team members to monitor and validate outputs and outcomes during the project planning and implementation phases.

The timeframe of the Digital Inclusion Corps Pilot Project is May, 2017 through January, 2018.

DICPP Anchor Organization Pre-Project Survey: (14 days after OMB approval)
DICPP Local Organization Pre-Project Survey: (30-45 days after OMB approval)

Data will be collected in the early phases of project implementation to gather information on participating organizations' engagement with certain demographic groups and their "current state" of Digital Inclusion activities.

DICPP Anchor and Local Organization Post-Project Survey: (November/December, 2017)

Data will be collected using the same survey format as the pre-project survey to gather information on output and outcomes of the pilot project.

DICPP Anchor Organization End of Project Survey: (December, 2017)
 Surveys questions will use Likert Scale response options.

DICPP National Leadership Team Project Implementation Data Collection: (On-going, 2017)
 Data will be collected from the national leadership team members including National Digital Inclusion Alliance and PAST Foundation (NDIA-PAST) the DICPP Project Manager and DICPP Corps Members.

Data collection activities are designed to monitor progress on key deliverables and to track outputs and outcomes as articulated in the timeline of the Institute of Museum and Library Sciences (IMLS) National Leadership Grant-Museum proposal (NLG-Museums FY 16).

Survey and Evaluation Overview:

Surveys questions will use YES/NO, Multiple Choice and Likert Scale response options.

Harkin Consulting Services will not administer surveys or collect data from individuals, prioritized target groups or other beneficiaries directly receiving services or trainings delivered by participating local organizations or Digital Inclusion Corps members.

Surveys will be given a maximum of 3 times. Each survey will take less than 20 minutes to complete. Surveys will be conducted two to four weeks after OMB approval through December, 2017. Participants will be members identified in the original proposal (i.e. Anchor Institution representatives, NDIA-PAST, Digital Inclusion Project Manager, Digital Inclusion Corps staff, local collaborators and Steering Team members)
