Brief Summary. IMLS recognizes that communities across the country are suffering at unprecedented levels and that swift response is paramount. We know that museums and libraries are in need, but just as importantly, as recognized sources of trusted information and as safe places, they are key to recovery strategies as communities struggle to create a new post-COVID reality. Our grant program will strengthen the institutional capacity of museums, libraries, and related organizations to respond to community needs quickly, effectively, efficiently, and responsibly, and it will increase their ability to deliver programs and services that contribute to the well-being of families, groups, and individuals of all cultural and socioeconomic backgrounds. Because the need is great and swift response is paramount, we respectfully ask for an expedited clearance so we can distribute funds in a timely manner.

Thank you for your consideration.
